MARION OPA OFFICE CLOSES DOORS TODAY

Operations Here Suspended on All Controls Except Rent Ceilings.

The OPA office in Marion closed its doors to the public today and suspended operations on all items except rent controls.

The OPA board's action followed a telephone conversation with John Loder of the district OPA office in Cincinnati, who said he would be in Marion today to complete final arrangements for winding up affairs of the local office at 169½ East Center street.

Field Staff Cut

The close-up order followed an order last week from Washington cutting the agency's paid field staff by nearly one-third. The seven members of the Marion board still were on duty today and the rent control branch was still functioning, but all other activities, including surveys on apparel and consumer durable goods, new and used cars and services have ceased. Board members said they would be given 30 days in which to close their books.

The board was established here in December, 1942, with a volunteer staff setting up an office in Marion Water Co. building on East Center street. When a full-time paid staff was authorized, the offices were moved to their present location at 169½ East Center street. The board serviced Union, Morrow, Marion and Delaware counties.

Rent Plans Uncertain

Board officials said they were uncertain whether or not the rent control office would be maintained in its present offices or would be moved to a new location.

Clarence Shockney, chairman of the local OPA board said trade and consumer inquiries about price control formerly handled by the local board should be addressed to the OPA district office in Cincinnati. Certificates of transfer covering sales of used passenger automobiles may be obtained from principal auto dealers. Dealers should request additional supplies from the OPA regional distribution center at 1020 Boliver road, Cleveland, 15, O., Mr. Shockney said.

Sugar forms required by the trade and consumers may be obtained from the Cincinnati district office.

Closing of OPA offices is nationwide and the Marion office is one of the 38 in Ohio which shut down today on order from Cincinnati District Director John E. Robinson Jr. The Cincinnati district, covering 50 counties in the southern half of Ohio, has 165 paid clerks and 20 local boards.

Cost Of Paint Goes Up From 31 Cents To $1.30 A Gallon

By The Associated Press

WASHINGTON, Nov. 4—OPA raised prices of most paints today by 31 cents to $1.30 a gallon.

Agency officials also said soap prices must be increased or decontrolled.

The increase on paints was granted because of higher costs of linseed oil which was freed from price ceilings Oct. 29.

Most of the products that go into soaps also have been decontrolled.

The paint increase are effective today at the manufacturers' level and may be passed on by all retailers when they reach consumers.

The increases include 45 cents a gallon for flat wall plant, 76 cents for interior gloss paint; $1.10 cents for exterior house paint, 66 cents for house paint in soft and semi-paste form, 88 cents for exterior house paint undercoat, and $1.30 for colors in oil.

Other increases:

Semi-gloss paint, 31 cents a gallon; enamels, 52 cents; gloss mill whites, 60 cents; wall primer and undercoaters, 72 cents; enamel underbody, 35 cents; exterior paint, 66 cents; black and praphite paint, 88 cents; exterior enamels and varnishes, 55 cents; roof and barn paint, 46 cents; floor paint, 41 cents; and interior varnish, 40 cents.

BYRNES, BEVIN TALK PRIOR TO MEETING

By The Associated Press

NEW YORK, Nov. 4—Secretary of State Byrnes met with Britain's Foreign Secretary Bevin today in the first of a series of talks preparing for the opening in late afternoon of the four foreign ministers' sessions on the eastern European peace treaties and Germany.

Byrnes met Bevin in mid-morning and aides said he planned to see Soviet Foreign Minister V. M. Molotov and French Deputy Foreign Minister Couve de Murville prior to the formal convening of the council of foreign ministers at 4 p. m.

The preliminary talks were described as secret, but authorities considered it evident that Byrnes would be exploring with the other three the most effective and speedy means of tackling completion of the peace treaties for Italy, Romania, Bulgaria, Hungary and Finland.

In the case of Bevin, his talk also afforded his first opportunity since the Paris peace conference closed Oct. 20 to review the state of Anglo-American relations with Russia and evaluate the possibilities of settling here the Trieste, Danube and Bulgarian-Greek problems which stirred up intense dispute at Paris.

KIDNAPERS OF 2 OHIO HOUSEWIVES SOUGHT

By The Associated Press

SPRINGFIELD, O., Nov. 4—State highway patrolmen and other enforcement officers conducted a widespread hunt today for two young men who abducted two housewives in a dash across central Ohio last night.

Mrs. Morgan C. Penn, wife of an attorney living in Bexley, a Columbus suburb, told authorities she stopped her car in Bexley when two motorists shouted that it was afire.

As the automobile stopped, Mrs. Penn said one of the men threatened her with a gun, moved in behind the steering wheel and drove away with her. The other man, she said, followed in a second car until it ran into a ditch. Then, Mrs. Penn related, as her abductor went to the aid of his partner she fled to another car which had stopped at the scene.

The men, Mrs. Penn continued, dashed away in her automobile, which later was found wrecked three miles west of West Jefferson. In West Jefferson police said they were picked up by Mrs. Alice Eggleston of Springfield.

Mrs. Eggleston, who was with her four-year-old daughter, said the men took control of her car but later left her and fled afoot, after warning her not to tell the police.

Highway patrolmen said both women reported they were threatened but were not harmed.

Patrol headquarters in Columbus said no trace of the pair had been found.

Playwright Shaw Urges Wallace for President

By The Associated Press

LONDON, Nov. 4 — George Bernard Shaw's suggestion that the Socialist Fabian Society of Great Britain try to make Henry A. Wallace President of the United States brought little reaction here today.

British newspapers did not mention the 90-year-old playwright's proposal, made in a message to the Society's 60th anniversary rally last night. Political leaders, who attended the rally, including Prime Minister Clement Attlee, were equally silent.

"The only message I have for the moment," Shaw wired, "is that the Fabian Society, having made Russia a great Fabian state, has now to make Wallace second Franklin Roosevelt as President of the United States."

500 Hear Lochner Describe Conditions in Postwar Germany

By ARTHUR B. MYERS

More than 500 Marionites at Edison Junior High school Sunday afternoon heard Louis P. Lochner, internationally-known foreign correspondent, advocate a more vigorous and enlightened program of reeducation and rehabilitation of Germany by the western allies, particularly, Americans, to woo the Germans to democracy and prevent them from going Communist.

Mr. Lochner said that Germany is more favorably inclined toward the west and its principles than Asiatic Russia, and a policy of helpfulness on our part will bring them into the Western camp.

He pointed out that despite our bumbling approach to the problem of occupation, Communism has lost where elections have been free.

Mr. Lochner, first of four speakers in the Marion Chamber of Commerce's Sunday Afternoon Forum Series, is one of the best-informed American journalists on conditions in Germany. From 1928 to 1942 he was chief of the Berlin bureau of The Associated Press, during which time he saw the rise of Hitler, start of the Euorpean war and Pearl Harbor. He was the last American journalist to leave Germany, having been interned there for five months after the United States entered the war. He return to Germany with the invading American troops and returned to this county last Oct. 10.

Chief Points of Program

Mr. Lochner said that in our decision for a "tough ploicy in Germany, we have committed ourselves to a primative rather than acurative program. He pointed out that our policy, as announced by General Lucius Clay, our chief administrator embraces (1) de-militarization, (2) de-Nazification, (3) de-industrialization, (4) re-education. While holding no brief for Nazis or militarists, Mr. Lochner pointed out that such a palicy is three-quarters negative and only one quarter positive.

We have been doing a fine job in re-education, he said, but barriers still stand in the way and the general attitude of top administrators places more emphasis on the "de's" than on the "re."

This attitude is a result of planning from top levels in Washington, Mr. Locher said, and he advocated that citizens here bring pressure to bear on congress for a shift toward a more realistic program.

He asserted that military government officials entering Germany were trained to expect no assistance from the Germans and to trust none of them. This, the speaker said, despite what he described as an undeniable German record of resistance, in some quarters, to Nazism. He reminded his listeners that concentration camps in Germany, started in 1933, while the Allies were still giving Hitler tacit support, and their first occupants were Germans, many of them socialists.

Calls Statement Error

Mr. Lochner said he is inclined to consider General Eisenhower's

VICE DRIVE WEIGHED AT STEUBENVILLE

By The Associated Press

STEUBENVILLE, Nov. 4—The request of a dozen Protestant ministers that they be deputized as special policemen to combat crime in this city of 40,000 today prompted three city councilmen to study a date for a special session to consicer the proposal.

Councilmen Andrew Madigan, John Stanley and George Hutton agreed to call a special meeting, possibly for Thursday night, in the absence from the city of Mayor George W. Floto.

Meanwhile the ministers took no further action on their plan and said none would be taken until the council discussed the request to deputize them and grant them authority to recruit war veterans in their proposed campaign against crime.

In the pulpits of these ministers' churches, no mention was made of their proposal during yesterday's religious services, Dr. Norman E. Nygaard, spokesman for the group, said. Dr. Nygaard, Army chaplain in World War I and a former missionary, is pastor of the large Westminster Presbyterian church.

The ministers do not propose to carry arms, if their request is granted, but they will carry sledge hammers and "smash up the joints we raid," said Rev. Robert K. Russell, pastor of the First United Presbyterian church and president of the city's ministerial association.

Steubenville recently recorded three slayings within a period of 10 days. Only one of these was connected by ministers with conditions they seek to eliminate.

OHIO-TO-NEW MEXICO RADIO RESCUE STAGED

By The Associated Press

CANTON, O., Nov. 4—Quick work by a local amateur radio fan brought rescue yesterday to nearly 300 motorists caught in a "terrific snow storm" some 1,750 miles away in New Mexico.

Paul L. Hughes of Hartville, a radio fan since 1940 and a navy operator on a Catalina patrol plane during the war, was listening on the 10-meter band when he caught a message, "trapped in terrific snow storm 65 miles west of Albuquerque. Can you get help?"

Answering the call, Hughes learned nearly 300 motorists were battling the storm, moving at snail's pace or stalling when they ran out of gasoline.

Switching on his transmitter, he sent an emergency call and raised an Albuquerque operator, Fay A. Boger, who notified the New Mexico state police. The rescue party was under way 20 minutes after the call for help.

Hughes later contacted the sender of the distress call and learned it was Dale L. Hawk of Battle Creek, Mich., another amateur radio fan, whose car was [illegible]

Mediator Says Both Parties Have Accepted Proposal in Principle.

BULLETIN

By The Associated Press

WASHINGTON, Nov. 4 — Sporadic walkouts in some of the nation's coal fields lent emphasis to negotiations on John L. Lewis' demands for a new contract and higher pay today as government and union conferees went back into session. Lewis himself was absent again as the talks resumed after a weekend recess.

• • •

By The Associated Press

WASHINGTON, Nov. 4—Federal Mediator Frank P. Douglass said today that opposing sides in the 15-day old strike of Trans-World Airline pilots have accepted in principle his proposal for arbitration.

Douglass told reporters he expected the walkout to end as soon as representatives of the company and the pilots union clarify a few points.

Douglass, chairman of the national mediation board, said representatives of TWA and of the airline pilots association would meet in his office this morning to complete the details of the arbitration agreement.

This proposed agreement would provide that the 1,400 pilots go back to flying while demands for higher pay for 4-engine plane fliers and for revised working rules are submitted to a panel whose decision would be binding.

The TWA dispute was one of three labor problems up for settlement in Washington.

Other Developments

The others were:

1. Coal miners' contract negotiations. Discussions between the AFL United Mine Workers union and the government were recessed last Friday "in delicate shape." Some 10,000 miners in West Virginia, Kentucky and Tennessee had stayed away from their jobs, but district union leaders said they were trying to get the men back to work. John L. Lewis, the union chieftain, has made no specific demands for inclusion in a new contract, but may bring his strategy into the open later this week.

2. The Allis-Chalmers dispute. Secretary of Labor Schwellenbach had asked the company and CIO-United Auto Workers union Local 248 to meet in Washington today to seek an end to the six-month strike at the company's West Allis, Wis., plant. Walter Geist, company president, replied that he would prefer a Chicago meeting on Tuesday. Robert Buse, union local president, said he was willing to negotiate anywhere, anytime. Thus, no meeting was definitely scheduled, and the next move was apparently up to the labor department.

Forecast Big Turnout At Polls Tuesday

Predictions Made That Vote in City and County Will Run to 20,000.

One of the most active political campaigns in recent years in Marion county was drawing to a close today with party leaders and election board officials predicting a total vote which may surpass any since the presidential year of 1944.

General opinion is that the vote will total over 20,000. The vote in the city is expected to be unusually heavy, with the two-mill school levy for teachers' salaries drawing out many additional voters. Total vote in the city in 1944 was 14,134 and election officials generally forecast the vote tomorrow would run somewhat higher.

Several Special Issues

Special issues in the county, including a referendum on a village sewage system and waterworks plant at Prospect, special bond issues at Montgomery and Marion township schools, and special school levies at LaRue, Waldo, Pleasant and Morral, are expected to boost the county vote, which has been estimated to run 7,000. Presiding judges in the county say the county vote will depend to a large extent on the weather. If the weather is fair, the vote will be light, they claim, since most farmers will not take time out from their field work to go to the polls. If the weather is rainy, however, a large vote in the rural areas is expected.

For most candidates, the campaign closed Saturday, climaxing several weeks of vigorous campaigning and rallies throughout the area attended by record crowds.

Both Democrats and Republicans have scheduled meetings for tonight at 8 o'clock. The Marion County Republican club will meet in its headquarters on East Center street and the Marion County Democratic club in its headquarters on West Center street. Both are monthly meetings. Republicans will make final arrangements for their election party, to be held tomorrow night in their headquarters. Details are being worked out by Republicans to provide up-to-the-minute election returns as they come in. Democrats said their meeting would be routine.

Polls Open At 6:30 A. M.

Polls will open at 6:30 a. m. tomorrow in Marion's 30 and the county's 25 precincts. The polls will close at 6:30 p. m.

Presiding judges in the county precincts were busy today getting their election machinery in order after receiving their election supplies from the election board office Saturday. Presiding judges from city precincts were receiving their supplies today.

Voting places in the county are the same as last year, the election board has announced, and in the city there is only one change. Residents of precinct E, Fourth ward, who formerly voted at the Spaulding residence at 255 Duluth avenue will vote tomorrow at the Moore residence at 409 Bellefontaine avenue.

Phone News Service Arranged By Star for Election Night

Special telephone news service about the election will be provided by The Star Tuesday night.

This will include vote counts of county and district contests and the city school levy as returns are received from the board of elections and also Associated Press reports of election returns from state and nation.

A corps of tabulators will be on duty in The Star news office to keep running totals of the vote in the county as rapidly as precinct returns come in from reporters at the board of elections office, and these figures will be given by telephone to residents of Marion and vicinity who call. Inquiries about Associated Press election news from state and nation will also be answered. The Star's phone number is 2314.

This service will be kept going until 2 local returns are in, which is not likely to be until well after midnight.

Phone calls may be made of any time and as often as information is wanted on any of the election contests and the school levy.

No returns from Marion city and county precincts can be reported before 8 p. m. and probably later, but whenever they do come the tabulators will be ready for answers to the telephone inquiries.

Shortages Reported Still Delaying Steel

By The Associated Press

CLEVELAND, Nov. 4 — Shortages in scrap and pig iron continue to hamper steel production at some points, the magazine Steel reported today.

The trade journal said new iron shortly would reach the market from government-subsidized furnaces, carrying $6 to $10 premiums over current ceiling prices, "but this iron supposedly headed for the heating program imminently and a large share will go to Manhattan rather than to the steel mills."

Steel added that this shortage [illegible]

35,000,000 BALLOTS SEEN IN NATIONWIDE FIGHT FOR CONGRESS

Presidential Hopes Of 2 Candidates At Stake.

Results In 16 Key States To Map U. S. Course.

By The Associated Press

COLUMBUS, O., Nov. 4—Ohio voters, perhaps 2,215,000 strong, will elect their government officials tomorrow and may decide the political future of two presidential possibilities.

And by selecting a U. S. senator and 23 members of the national house of representatives, they also will weigh heavily in the determination of whether the new congress shall be controlled by Democrats or Republicans.

The present Ohio delegation in the house consists of 17 Republicans and six Democrats.

Attention will be centered tomorrow on former Gov. John W. Bricker republican candidate for senator, and Gov. Frank L. Lausche, a Democrat seeking a second two-year term.

Bricker, nominee for vice president in 1944, is shooting for the presidency, his friends say, and election now obviously would strengthen his position in the Republican convention of 1948.

Governor Lausche is the candidate feared most by Republicans. They are so concerned that they have brought here their national chairman, B. Carroll Reece, to help wind the campaign in a radio broadcast tonight.

G.O.P. Expects Victory

The Republicans have been unreserved in their anticipation of victory in all statewide contests except governor. Democratic leaders say Lausche has a better chance than any of their other candidates.

Should Lausche be the lone Democratic candidate to survive in tomorrow's balloting, his stature in the party would be considerably enlarged—so much so, his associates say, he would merit respect when his party gets to the business of nominating a presidential candidate.

Opposing Bricker is U. S. Sen-

Coloradans Dig Out From Under Storm Fatal To Six Persons

By The Associated Press

DENVER, Nov. 4—A snowstorm which blanketed this area during the past 36 hours was abating today and Coloradans who watched one of the biggest early-winter storms in years began digging themselves out.

Six persons died in Denver from over-exertion or heart attacks as they walked through the drifts or sought to free stalled automobiles.

More than 16 inches of snow mantled the countryside from Denver, north to Cheyenne, and south to the northern border of New Mexico, with travel reduced to a minimum.

The highway patrol said travel conditions were worst in the eastern portion of the state, and warned motorists not to drive unless it was absolutely necessary.

The weather bureau forecast generally clearing weather today with snow in the southeastern section of the state. Weathermen said the storm was moving out of this region and reported that snowfall had stopped in Wyoming and northeastern Colorado.

In Denver some drifts were as deep as 10 feet, forcing temporary abandonment of two streetcar lines. Taxicabs refused to leave the business district and downtown automobile traffic was virtually at a standstill. Milk trucks and other delivery services were shut down and police reported a wave of parked car looting as drivers made their way home by bus or streetcars.

PRESIDENTIAL APPEAL TO VOTERS UNLIKELY

By The Associated Press

INDEPENDENCE, Mo., Nov. 4—Prospects of an eleventh hour Presidential appeal to the nation's voters faded today as President Truman clung to his sideline role and his party organization fought the battle of ballots for Democratic control of congress in tomorrow's election.

With a speech now apparently definitely out of the picture, Presidential Press Secretary Charles G. Ross told reporters an election eve statement by Mr. Truman, back home to vote, had not even been discussed.

However, the President was on record for the second time in favor of exclusive United States trusteeship of captured Pacific island bases deemed vital to the country's security.

Speaking through Secretary Ross, the President yesterday reaffirmed the Pacific base policy he enunciated at a press conference Jan. 15.

Boyle Gives Hints On How To Travel Abroad

By HAL BOYLE
Associated Press Writer

NEW YORK, Nov. 4—Here are a few tips from the poor man's Baedeker if you are planning a trip abroad

The things you could use most are a bottomless pocketbook, a magic carpet and a portable apartment.

Hal Boyle

For money, transportation and living accommodations are just as big problems in the large cities of Europe and Asia as they are in America. The wise traveler plans his itinerary well and reserves hotel rooms and train space well in advance

Don't worry over whether the folks overseas will like you. The English are too polite to say "Uncle Shylock" in your hearing, and if the Dutch or French do you won't be able to understand them anyway.

Besides, for all the pranks our soldiers played, they kindled in Allied countries a warm goodwill toward the American way and the American people You'll be welcome unless you lead with your chin And of course, Europeans have a deep and shining love for beautiful greendollar bills

So they've repainted all the old tourist traps and dusted off many of the new battlefields There are lots of things to see. But there also still lots of war-born rules and restrictions left in these rationed lands To keep from bumping into them, better let a responsible travel agency chart your trip—unless you know your way around or prefer to Houdini your way through redtape alone

Laundry Big Problem

One of your chief problems, if you keep on the move, will be laundry The London hotels give you the monocle look if you even bring up the subject, but their Irish chambermaids—bless their honest freckles—will do it on their own time if you give them a little cash and blarney

Soap is short in many countries Take along several bars. If you're touring rural parts of the continent, you'll never regret having brought a supply of toilet paper. If you're a hypochondriac, bring plenty of your favorite pills, powders, capsules, and nose drops. Many medicines still are scarce.

A few do's and don't's:

Do carry a language phrase book. The natives may think you are strangling when you pronounce the words, but they'll love you for trying.

Do watch your luggage at all times More people will try to steal your shirts than your diamonds.

Bring Evening Clothes

Do bring along evening clothes if you want to put on a little dog. It's smart to dress well again.

Don't try to tell Europeans that things are too tough in America. They won't believe you, and anyway they want you to shake your head over their troubles It's an easy way to make a friend.

Don't cluck over the loose morals of foreign women. You just think they're looser than in America. They aren't Travel guides can give you quite an earful on the conduct of American women abroad

Don't be brusque If an English stranger strikes up a train conversation with you. He thinks you'll be hurt if he doesn't.

Don't mention lend-lease

Don't say America won the First World War.

Don't say America won the Second World War.

Don't even be cocksure about who won the war between the states Jeff Davis has some admirers abroad.

Final Bit of Advice:

In France if you have a problem you can't solve go up and stand in front of a gendarme. Just stand there, even if he doesn't understand you French gendarmes are the kindest people in the world Eventually he will be moved to find out what is wrong, and then he will do something for you.

If you get caught in London after dark with no place to stay, just walk into the nearest hotel lobby, take off your shoes, lie down on the floor—in view of the desk clerk—and begin to cry.

He won't do anything for you, but everybody feels better after a good cry And your feet will be rested for the walk to Hyde Park where you can bench with the squirrels

The Army Ground Forces offers you a new life OUT THERE

Men of the Army Ground Forces' 11th Airborne Division tour Japan's noted "Isles of Pines"

Look toward Korea and Japan! A thrilling new job and a new life—with interesting work, sports, entertainment and travel opportunities—can be had for the asking by qualified young men who volunteer for one of the famed Far Eastern units listed at right.

What an opportunity . . . what a *job!* Choose one of these great divisions, then set your sights for an experience that will be valuable to you all your life. Training in one of these crack units will stand you in good stead wherever you go. Study a foreign language. Learn the fascinating details of Military Government—so vital to future peace and world prosperity.

Japan's "Isles of Pines" are but a sample of the attractions of an Army career in the Far East. The Army has reopened comfortable hotels, theaters, swimming pools, tennis clubs, golf courses, ball parks. These—familiar haunts of pre-war tourists—and many *new* developments—provide a broader choice of recreation for Army men than is enjoyed by the average civilian at home.

Not everyone can measure up to this job. Only 3-year enlistees who meet prescribed physical and mental standards can enjoy the benefits of such a job. High overseas pay, excellent medical and dental care, good food and lodging and a generous retirement plan make your future in the Army Ground Forces too good to miss! See your nearest Army Recruiting Officer for full details.

Dewitt Mackenzie

stalled his brand new Socialist government last year he had no intention of becoming a long-haired radical. It certainly demonstrated anew that there is no trend toward the extreme left.

However, this middle-of-the-road England is a far different country from what it was when your columnist first went there 30 odd years ago. You wouldn't think it possible that there could be such a vast social, political and economic change in that comparatively brief span.

During the past generation there has been a leveling off. Great fortunes and estates have been broken up by heavy taxation. The land gentry is fast disappearing, and with it many cherished traditions. Meantime there has been an upward surge of the lower strata of society.

School Tie Reigned

When I first went to England the old school tie reigned supreme. Gentlemen were born, not made. A member of the aristocracy was a gentleman ipso facto, even though at the same time he might be a terrible rotter. A tradesman couldn't be a gentleman because he wasn't born that way — and neither could his son, even thought he had degrees from a dozen universities and was a delightful person to meet.

Gentlemen's sons went to "public schools" (we call them private in America), while tradesmen's sons attended the plebian municipal schools — and they were worlds apart. The old school tie was the open sesame for a lad starting out in life.

All that began to change after the First World War. This was due partly to the fact that taxation compelled a lot of once wealthy ladies and gentlemen to go to work, and partly to the insistent demands of the lower fanks for their place in the sun. The pace has accelerated with passing time until we witness the astonishing advent of a Socialist national government, and find the Socialists the strongest party in the municipal councils.

School Reform Tipped

Speaking of old school ties, not long ago Minister of Education Ellen Wilkinson announced the government's intention to reform Britain's educational system and "remove those class distinctions which are a handicap in democracy." Miss Wilkinson proposes to make the ordinary schools so good that it will seem absurd not to send all children to them.

Well, she will find that easier of achievement these days. Tradition still clings, of course, but it's largely true that gentlemen is one who thinks and conducts himself like one, whatever his birth may be, and let it be recorded that England's aristocracy has accepted its new role without complaint and has turned to in the new life with sporting spirit. It has been a magnificent exhibition.

So we have a new Britain, and an interesting aspect of the change is that lot of Conservatives have helped to bring it about by voting Socialist because they believed in the need of reform. That's what put the present Socialist government into power —and what will oust it if it stubs its toe.

Alaska is larger than the three largest states combined—Texas, California and Montana.

World Community Day Celebrated at Galion

Special to The Star

GALION, Nov. 4 — To promote good will, peace, and the spirit of cooperation, World Community Day was observed in Galion Friday under sponsorship of the Federated Missionary societies of Galion churches. It was held at the First United Brethren church at 2:30 p. m. and was opened with a hymn led by Mrs. Charles Geiger of the First Presbyterian church.

Rev. W. H. Ayres of the Market Street Methodist church, offered the opening prayer, and greetings were extended by Mrs. Carl V. Roop. The program included devotions, songs and recitations by representatives of churches in the community.

On Thursday afternoon, the women of the First Methodist church met in the church parlors for the Day of Prayer. The theme of the meeting was "Stewardship, Prayer and Self-Denial."

CLEAR, COOL ELECTION WEATHER PREDICTED

By The Associated Press

Cool temperatures and clear skies are in store for most of the nation for election day tomorrow, although rain is forecast for much of the south.

Conditions by regions as forecast by the U. S. weather bureau in Chicago today will be:

New England—Generally fair, rather cold with few snow flurries in northern Maine.

Mid Atlantic — Partly cloudy with rain southeastern Virginia.

South East—Showers in most sections except Florida.

Great Lakes—Fair and moderately cool.

Great Plains—Fair with moderate temperature.

Ohio Valley—Some rain in Tennessee, Kentucky with some cloudiness north of the Ohio river but no rain of consequence.

Gulf Coast—Rain in Alabama, Mississippi and southeastern Louisiana.

Southwest—Fair with some rain in the lower Rio Grande valley.

Rocky Mountains—Clear, cold. Recent snows in east and central Colorado—Denver had 24 inches—may still make driving difficult.

Pacific Coast—Fair weather.

Pacific Northwest—Fair weather now forecast, although some rain was seen in earlier predictions.

FAREWELL PARTY

Deafened People May Now Hear Clearly

Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music, and friendly companionship. Accepted by the Council on Physical Medicine of the American Medical Association. This device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The tone is clear and powerful. So made that you can adjust yourself to suit your hearing as your hearing changes. The makers of Beltone, Dept. 2796, 1450 W. 19th St., Chicago, 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. The last lap is the hardest!

You've probably figured your present car won't have to last much longer.

We hope you're right. For our part, we're doing our best to get those grand new Packards to our customers.

• You know the situation

But, like every other motor car manufacturer, Packard is still struggling with parts and materials shortages.

This year, the industry as a whole has been able to build only 44% of its output for the same period in 1941.

Packard has done better than that, but we'd like to put in a word of caution:

It may be some time yet before you get behind the wheel of your new car.

• Don't take a chance!

Make sure your present car keeps rolling. Test your car with this easy quiz.

If you find any of these symptoms, bring your car in for a quick check-up.

Lots of cars are lasting longer and running better because our expert mechanics are trained to nip trouble before it takes hold!

Winterize Now!

These days, it's doubly important to beat winter to the punch. Bring your car in *early* for a thorough check-up of your battery, electrical system, and cooling system—as well as pre-winter lubrication and engine tune-up. The last-minute rush will be terrific— and the first cold snap may damage hard-to-get parts!

P.S. Fenders, doors, running boards—in fact, all body parts are scarce. Don't let rust eat them away. Our protective treatment will add to your car's life, appearance and value.

ASK THE MAN WHO OWNS ONE

X This home quiz can help you catch little troubles before they become big ones!

1. ENGINE:

Is smoke coming out of the exhaust? Are you using more oil than you used to? If "Yes," better have your piston rings looked at.

2. CLUTCH:

Can you push the pedal down 1" to 1½" before the clutch starts to release? If the distance is less than that, you'd better have it adjusted.

3. STEERING:

Measure amount of "free play" from "A" to "B" and from "A" to "C". Two inches or more indicates too much lost motion before wheels begin to turn.

4. BRAKES:

Does your brake pedal travel more than one inch before any braking is felt—and at least one inch of pedal travel left after a full stop in 30 feet at 20 m.p.h.? If not, police will say they are unsafe.

Parents Are Pressure Group for Better Care of Children

The following is one of a series of six articles dealing with the ... confronting today's children, which should be of interest ... American parent who hopes for a better world tomorrow.

★ ★ ★

By KATHARINE F. LENROOT
Chief, U. S. Children's Bureau
Written Exclusively for AP Newsfeatures

WASHINGTON—I often wish, here in Washington as I see what makes the government run, that parents everywhere in the country could look in on it. They would see, time and time again, how what they did in their community in the end had its effect on what they got in return from their government in the way of a better chance for their children.

Parents are a pressure group of great power, if only they knew it. They could, if they set about it with sufficient determination, get good schools for their children and get good health services and medical care available to all. They could see to it that their neighborhoods had parks and playgrounds and other recreational centers. They could do much if they set their minds to it.

Instance Cited.

Just the other day I heard of what a group of parents in one single community succeeded in doing for the children of an entire state. They were the parents of children with cerebral palsy, one of the most neglected lot of children in this country as far as medical care and training are concerned. The cost of the care and the training, even if both were available, which is not likely, would be far beyond what most families could afford.

This small group of parents, though, decided that at least something could be done to provide special training for their children in at least one school. They won that victory and went on to more. The upshot was that as a result of the statewide interest that developed from this single effort, $1,008,000 was appropriated by the California legislature to get care to all young victims of cerebral palsy within the state. Action by the state, in turn, is stimulating interest elsewhere, so that it is safe to predict that before too very long there will be many more similar programs undertaken on behalf of these children.

First, there is the immediate benefit to be gained. Second, there is the example set to the young people themselves on what living in a democracy requires of them in the way of responsibility. The child's attitude toward community responsibility is largely set for him in the home. Young people who take leadership are, by and large, those who were brought up to it.

If parents know the kind of neighborhood they want for their children, and I think they do, then it is up to them to work together through community organizations for what they want. That's the best way yet discovered, not only for getting a better deal for the children, but also for teaching the young people in the home and in the community what citizenship involves.

RATIONING CALENDAR

Sugar—Sugar stamp 51 in Book 4 is valid for 5 pounds through Dec. 31. Sugar stamp 9, extended one month, good for 5 pounds canning sugar until Nov. 30. Spare stamp 10, extended one month, good for 5 pounds canning sugar through Nov. 30.

Liquor — Ration period No. 38, which began Nov. 4, is good for one ration unit through Nov. 16. One unit consists of one fifth or two pints of rationed liquor. Whisky, if blended with imported cane spirits or gin, is not rationed. An extra unit of neutral spirit blend whisky allowed if purchased at the same time as the regular ration unit.

PROSPECT CLASS PARTY

The sixth grade class of Prospect school and its teacher, Mr. Cecil Conklin, were entertained Thursday evening at the home of Mr. and Mrs. R. L. Landon of north of Prospect. A Halloween masquerade party was held followed by games and contests. Miss Carol Retterer entertained with a tap dance, accompanied by Mr. Conklin. Guests were Mrs. John T. Boxwell, room Mother, and Mrs. Sterling Retterer.

YOUR HEALTH

By HERMAN N. BUNDESEN, M.D.

Eczema

Soap and water are good skin cleansers, and ordinarily, nearly everybody prefers their use to that of any substitute, because of their invigorating effect.

Sometimes, however, in cases where there is a disorder of the skin, soap cannot be used because it may cause further irritation of an already irritated skin. For example, in eczema it is better not to cleanse the skin with soap.

It has been suggested that what are known as sulfated oils are less irritating, since they are not as alkaline as soap, and alkalies may irritate the skin. These sulfated oils do not form a lather, but they do clean satisfactorily, because they take up the oils of the skin, and various types of dirt can then be easily wiped off. In fact, these sulfated oils can be used not only for cleaning, but also for removing ointments which have been put on the skin.

Eczema affecting the outer ear canal is similar to eczema of the skin. In the outer ear canal, there is not only the problem of cleansing the skin without causing irritation, but also of removing the ear wax or cerumen.

Dr. Robert P. Little of New York suggests that a mixture of sulfated oil, liquid petrolatum and water may be used for general cleansing of the ear canal, especially when it is dry and scaly.

The mixture can be used equally well whether the skin is wet or dry. After it is applied to the dry skin it may be washed off with water.

In getting rid of wax in the ear canal, if it is hard it may be softened over a period of a few days by the use of drops of olive oil or glycerin but, even better, the sulfated oil may be employed. After the wax is softened, it can be removed by syringing the canal with warm water to which baking soda and the sulfated oil have been added.

Of course, when eczema of the external ear canal occurs, it is a good idea to consult an ear specialist concerning the most effective treatment to be employed. He will prescribe the proper ointments to be used to soothe the skin. Sometimes, X-ray treatments are also of value. However, no matter what treatment is employed, there will always be the problem of keeping the ear clean, and it would appear the sulfated oil mixture is quite useful for this purpose.

Funds Distributed By Municipal Court

Funds totaling $3,574.55 were distributed by the municipal court during October, according to a report issued today by the court clerk.

A total of $763.55 was distributed from civil division funds. Criminal division funds distributed amounted to $3,300. Breakdown of criminal division funds distribution is as follows: to city treasurer, street maintenance and repair, $111.50; general fund, $3,008.40; to county treasurer, $139; to sheriff, $39; to state treasurer (one half of highway patrol fines) $111.56.

How Do YOU Want It?

WHENEVER the people, in disgust against excesses, care to do so they can vote false leaders out of office; they can correct such excesses by voting in new leaders. That privilege still remains in representative form of government so wisely and magnificently provided for us by the Founding Fathers. It is the two-party system in a nutshell.

One such time of disgust has come. A shift of party responsibility is due, in truth long overdue.

All the fireworks and political anxieties aside, there are no real complications to confront the voter in Tuesday's election.

We can have our government and our lives patterned in just one of two ways. Which way do YOU want it?

Under the prevailing pattern we can continue to live by compulsion and fear, subject to shortages in food, housing, clothing, necessities, conveniences. Under controls of every kind. Victims of governmental disruption, governmental contradiction, costly and dictatorial bureaucracy. Under threat of communism and other shades of destructive radicalism. Checkmated by economic tinkering and hateful regimentation.

In the alternative pattern of freeborn Americanism, we can revolt against the excesses of power-mad bureaucracy and pressure groups, against the frustration of congress by a weak and futile occupant of the White House.

We can take the structure of true democracy out of the hands of crackpot hangers-on and return it to the people.

We can have a stable economy, an opportunity for the exercise of initiative, energy, productive genius, an opportunity to build our country, state and city.

We can have security, comfort, decency, homes, food, machinery, necessities, conveniences, jobs, prosperity, a future unafraid and unregimented.

We can keep government by dictation, disruption, bureaucracy and regimentation by voting for it.

We can have traditional liberty, decency and equality by voting out the Caesars.

Use the Right Labels

BETWEEN now and the next national campaign in 1948, there should be some earnest thought about political labels used in this country.

Politicians and ideologists have fooled voters and citizens long enough by mixing up the signs on the bottles.

The Russian system of economics is not communism. It is a modification of state socialism.

The Russian system of government is not democracy. It is one-party dictatorship by nominal consent.

A liberal in the United States is not a Communist. An American liberal is a person who believes in the dignity of individual men, sovereignty of the people and a maximum amount of freedom with minimum interference.

A Communist in the United States is not a liberal. He is what he is in Russia, in Mexico, in Japan, India, France or Brazil—a revolutionist hoping to overthrow existing governments so he can experiment with his own version of government, which consists of giving himself dictatorial power over anyone who disagrees with him.

Conservatives in this country are not necessarily Republicans. Many conservatives, meaning people who want to save what they have found good, such as religion and the right to own property, also are to be found in the Democratic party—which is a minor point that has had major consequences in the political deception of recent times.

Radicals have been responsible for most of the label-changing done in this country. It has been their purpose to make mischief, to expedite their work of overthrowing all existing institutions. Under their own wrong labels of liberals and left-wingers, they have come significantly close to treason.

The political and ideological labels should be put where they belong before they come closer.

News Behind the News

By PAUL MALLON

Disarmament Topic Quickly Took World Spotlight.

WASHINGTON, Nov. 4. — The disarmament topic came up fast, hot and big. Stalin prepared the way for it in his completely directed government radio and news advices and then his Molotov opened the subject in such a large manner at the UN opening where he crowded such immediate vital questions as the election Tuesday back from the top headlines. The topic itself was rather plainly advanced to cover a change of diplomatic tactics from the Paris conference to this one. The Russians did not do very well at Paris or in the elections held recently in Berlin. They urgently needed a new line. The old bulldozing veto, threat and force tactics were not getting them anywhere excepting into a growing world unpopularity. So they loosened up a mite, or rather a shade of a mite, in letting UN discuss vetoism and came forward with the rather belligerently presented demand of Mr. Molotov that we outlaw our atomic bomb and otherwise curb our arms. So the whole realm of disarmament prospects was injected for a diplomatic strategic purpose into UN, and drew a counter plan from the United States which went the idea one better.

Now you may study these plans and counter plans in detail for days but the only safe conclusion is that disarmament has become a topic—a topic especially among people who do not know much about armament or among authorities who know but are not saying much frankly.

U. S. Did It Once.

The last time the United States disarmed was after World War I when we scrapped ships. Voluntarily we offered our keels and blueprints to the world and secured adoption of a 5-5-3 ratio among the big powers. We found out this did not prevent war. World War II was bigger and worse. Indeed our very disarmament treaties permitted Japan to build herself up to a war against us. So we must realize at the outset that disarmament does not necessarily mean peace, indeed such a treaty may be a vehicle of opportunity for war. In short, while our people may be thinking in old terms of disarmament and peace, their hopeful hearts are ruling their memories, and peace might just as readily eventuate from armament—good forceful armament which is too strong for anyone to attack.

Hopeful Americans may say the administration arms expenditures are running too high. They were $13.2 billions as last reported. I also think this is too high. Air Corps Leader General Spaatz has been writing magazine articles saying what you must have read in this spot much earlier, namely that the American frontier is now on the top of the world. One of our B-36s could carry 10,000 pounds of destructive agents (atom bombs) to Europe or Asia and return without refueling. He is speaking of modern armament even beyond the last war.

You can plainly see then that if armies and navies were cut finally by agreements now under discussion, peace might not eventuate. Then why not cut the air force, you may ask. Well, one of Stalin's government press announcements said he was not cutting his aviation or scientific wings any further—the two agencies of destruction most important to peace. You might better say, as the United States has peaceful intenions, why no keep our atomic bomb for use against anyone who would make war against us.

Peace Never Static.

Peace can never be static. Today it rests on the science and air fronts. To consider it seriously you would not, like Stalin, talk through newspapers, or like Molotov belligerently present it as a sort of diplomatic weapon at a conference.

You can see all these factors of peace plainly in your daily life. A man does not disarm himself, or throw away his fire hose (as Mr. Roosevelt once put it), or even lend-lease it to a neighbor in hopes that the neighbor may do likewise. To consider such things you would have to be rather sure of your neighbor first. Would you not first insist on knowing for sure your neighbor's state of mind, whether his intentions were similar to yours?

World peace then hangs upon the state of the world, as much as upon armaments. Plainly no thinking man can be sufficiently gullible to believe a state of mind has been established upon which disarmament can be built with any confidence. If Russia wants disarmament and peace it should first help establish the sound grounds for it, first contribute to a state of well being which has some authenticity and into which confidence may safely be placed. That would lead to real disarmament. To establish such grounds will be a long, careful and tedious business — a genuinely serious business, and not at all like the diplomatic discussion which the United Nations assembly has been strategically hearing.

Battle for Congress

By RAYMOND MOLEY

(This is the sixth and last article in a series of six on political situations)

* * *

THE final week of the campaign has shown an intensified drive by Democrats in most states. In some places, this has been due to a measurable revival of confidence in their chances. In others, it is due to last-ditch determination to try anything to ward off defeat.

There may be, here and there, some over-confidence on the Republican side. The trend in early October seemed, at first, too good to be true. Then it inspired a glow of confidence. Whether Republicans reached their peak too soon remains to be seen. The trend may be so pronounced that it can suffer some stiffening in the opposition and still carry everything before it.

A final check in decisive states prompts some small changes in the figures suggested in an earlier column, which indicated 226 Republican House seats. It now seems as if the Republicans will gain one more in Connecticut, Kentucky, Minnesota, Washington and New York and two in Michigan.

They will also probably save their First District seat in Colorado.

That brings the estimated number of house Republicans to 234.

There are a few spots where there might be Republican losses and also where earlier estimates of gains may have been too large. In Missouri, for example, a Republican district is now doubtful.

Gain May Be Larger

Since a trend usually outruns the best predictions, there must also be considered a possible larger gain. Pure speculation indicates that such a drift might easily carry 240 to 250 House seats by Republican candidates.

In the senate race, a last-minute recheck moves some previously doubtful races into the more-or-less-certain column. Over all, the senate lineup looks like this: Starting with 37 certain seats, Republicans will certainly add one each in Wisconsin, Ohio, Pennsylvania and Delaware. They will probably win Massachusetts, New York, Kentucky, Missouri and Idaho. That brings them to 46. They seem to have a slight edge in Washington and California. Montana is extremely doubtful. West Virginia depends on the course of John L. Lewis' battle with the Government over coal. In Wyoming, Democratic Senator O'Mahoney seems to be gaining. And good observers believe that a victory for Pat Hurley, the fighting Republican in New Mexico, would be somewhat surprising.

This means that to gain the necessary 49 seats, Republicans must win all the seats that show definite as well as slight leanings and, in addition, one of those now shrouded in doubt. A landslide would give them 52.

Lines Drawn Tightly

The present battle for both senate and house is conditioned by the fact that even in a year when every break has been with the Republicans, it is not easy to gain the seats necessary to decisive control. Lines between Republican and Democratic territory are drawn more tightly than ever before, and Republicans since 1938 have won back almost all that they can expect permanently to hold. The population is not distributed as it was in the 1920's; there is more class feeling now, and city machines are more firmly entrenched.

The role of prophet in politics is a risky one. It should not be assumed with irresponsible certainty. These guesses are justified only on the ground that they are based on the best on-the spot opinions that are available. They must be taken with the caution appropriate to any final judgment of the unmeasurable.

Buckwheat Cakes

Memories of buckwheat cakes drenched with melting butter and sweetened with maple syrup or honey stir as white acres of buckwheat gleam in the autumn moonlight in Minnesota, Michigan and Ohio.

Pivot of the buckwheat country, notes the National Geographic Society, is the New York-Pennsylvania line. Those two states often account for as much as two-thirds of the nation's crop.

The current seven-million-bushel crop ranks with Canada's production and normally is exceeded only by Russia, France and Poland.

Only Americans learned, however to delight in buckwheat griddle cakes. Russians cook the groats (hulled grain) in fat. The Norman French make buckwheat-flour bread. Poles and Germans cook the grain into a guel and into thin, dark cakes. In Great Britain it is fed to poultry and sheep, provides feed and cover for pheasants, and is grown to plow under as fertilizer.

The buckwheat cake had its heydey from the Civil War to World War I. The decline is attributed in part to the development of prepared flours in mixing buckwheat with wheat, corn or rice.

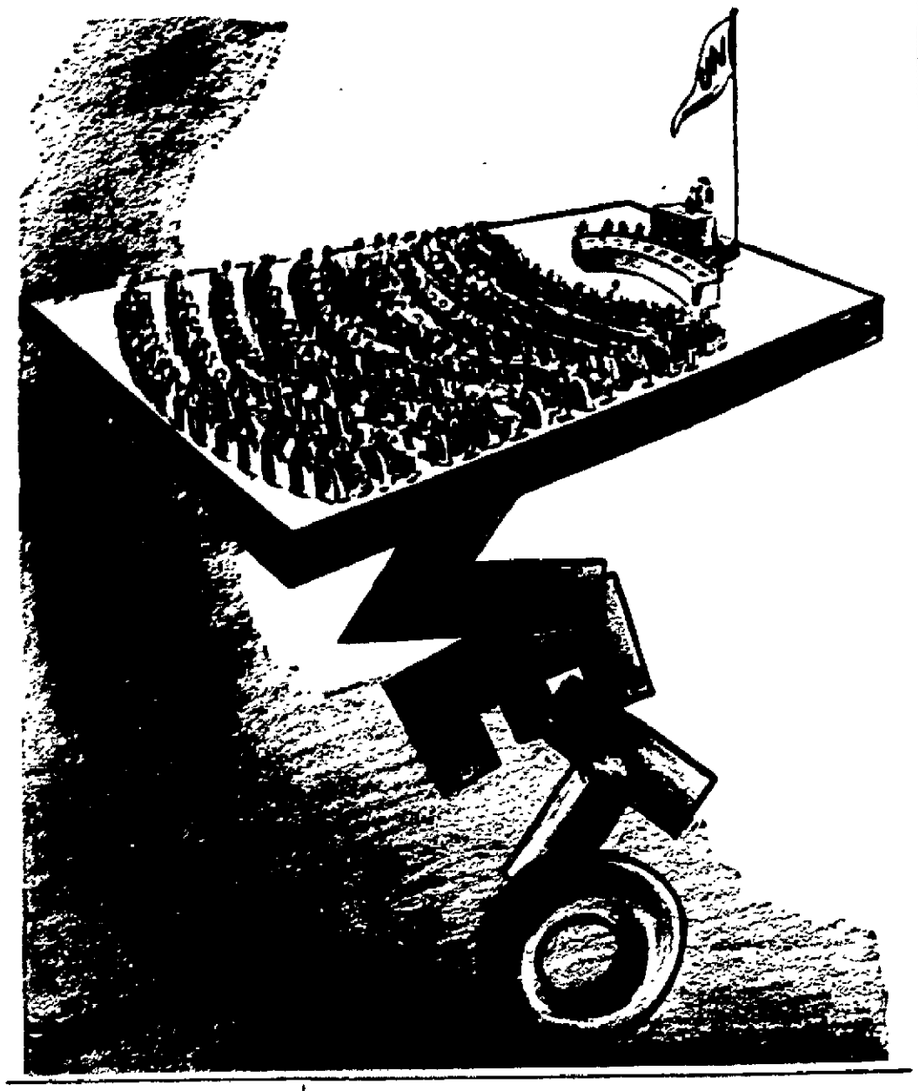
The decline also can be charged to the fact that buckwheat takes what is left after the major grains are planted. It matures more rapidly and grows better in poor soil than other grains. Hence the amount of buckwheat planted in June and July often depends on planting conditions for other crops in April and May.

Daily Bible Thought

A tree that is rotten at the heart soon stops bearing fruit: "They shall bring forth fruit in old age; they shall be fat and flourishing."—Ps. 92:14.

Almost half of the 3.3 million miles of highways in the United States is unsurfaced, and another third surfaced only in soil or gravel.

SHAKY FOUNDATION



From News of Other Years

TEN YEARS AGO.

It was Wednesday, Nov. 4, 1936.

Voters throughout the country, the preceding day, sent President Roosevelt back to the White House for another four years and reelected Martin L. Davey governor of Ohio.

Many homes and buildings ni Marion were without telephone and electric service as a result of six inches of heavy snow weighting limbs of trees and breaking wires.

Earl Speece of Scott township, five-time winner of the Marion county husking contest for standing corn, placed sixth in the state championship contest near Wooster.

Mrs. Tom Thompson, Mrs. E. L. Trott, Mrs. W. S. Spencer and Mrs. Jess M. Kleinmaier were hostesses for a meeting of the Elks Women' sclub in the Elks' clubrooms. Awards were won by Mrs. Kleinmaier, Mrs. Ralph Cheney and Mrs. Cecil Covault.

Mrs. Aaron Goerlich of Kenmore avenue was hostess for a meeting of the Woman's Missionary society of the First Reformed church. The program was in charge of Mrs. Clarence Flach.

A daughter was born to Mr. and Mrs. Alonzo Granger of the Gracely pike.

TWENTY YEARS AGO.

It was Thursday, Nov. 4, 1926.

George B. Knapp, president of the Chamber of Commerce, announced that the Gardner Tap & Die Co. of Cleveland had purchased the plant of the Studebaker-Wulff Rubber Co. on Lincoln avenue from its trustees in bankruptcy for $34,389. The new industry was expected to be in operation within 60 days with a force of approximately 60 employes.

Crown Prince Leopold of Belgium and Princess Astrid of Sweden were married in Stockholm in the presence of four kings, two queens and scores of other lesser representatives of royalty.

R. C. Randall, general yard master of the Erie at Hammond, Ind., whose railway career started as a yard clerk in Marion, was appointed trainmaster of the Chicago division of the Erie.

Mrs. Sarah Schmeltzer Schultz, 81, died at the Waddell Ladies home.

Nearly 700,000,000 pounds of used fats were recovered in the four-year period from August, 1942 to July, 1946.

Some Unhatched Chickens

By JOSEPH and STEWART ALSOP

WASHINGTON, Nov. 4 — The noise of Republicans counting their chickens before they are hatched is becoming almost deafening, these days. With the new congress not even elected the lines are already forming for a struggle over the Republican floor leadership, on the assumption that the next speaker will be the somewhat bewildered Representative Joseph Martin of Massachusetts.

Behind this known fact, moreover, there is a good deal that does not meet the eye. The Republican chieftains involved in the struggle not only assume that they will win the house Tuesday; they also assume they will win the presidency in 1948. And the jockeying for position between contestants for the Republican nomination is therefore influencing the struggle in the house. This is entirely natural, for the man who is challenging the previously accepted claims of Representative Charles Halleck is none other than Representative Clarence Brown of Ohio.

There is little doubt that Brown would make a more capable floor leader than Halleck, for where Halleck is impulsive and oratorical, Brown is large, solid, extremely shrewd and in the highest degree professionally competent.

But as Ohio's national committeeman and the political godfather of both former Governor Bricker and Senator Taft, Brown is the key figure in the Ohio crowd, who are seeking the 1948 nomination for one of their boys. If Brown becomes floor leader of the house, while Taft remains the most powerful man in the senate, the Ohio crowd will control the Republican leadership of congress.

Powerful Asset

That in itself will be a powerful asset in the struggle for the 1948 nomination, since the leadership can shape legislation in a way to influence the dispositions of state organizations. It will also mean, in effect, that basic Republican party policy in congress will be made by Senator Taft, whose advice on legislative questions Representative Brown will be strongly inclined to take. And this in turn will tend to commit the Republican party irrevocably to the Taft viewpoint, since the party will have to go before the voters in 1948 with a Taftian record to defend and claim support for. These considerations are certain to prevent the candidacies of Brown and Halleck from being judged on the respective merits of the individuals. If Brown and his friends decide to press the fight to a finish, the outcome will be a very interesting initial test of the Ohio crowd's national strength.

All of this underlines the importance of progressive division of the Republicans everywhere into pro-Ohio and pro-New York factions. The strength of the Ohioans is already so great that they can hardly be challenged except by the New Yorkers. Thus those who do not want Taft or Bricker must go to Governor Thomas E. Dewey.

Governor Harold Stassen of Minnesota, whom the Republican rank and file might well choose for their nominee if the organizations would let them, is left uncomfortably out in the cold by the Ohio-New York rivalry. There can be little question that his political strength has declined in the past months.

Stassen Still Working

He is still indefatigably touring the country to speak to any audience which will listen. He is actively backing such Republicans of his general kidney as Harry Cain of Washington, Tom Sweeney of West Virginia, Abe Goff of Idaho and Thruston Morton of Kentucky. He hopes that in the conservative dough of the Republican party in the house, there will be a leaven of about twenty members of this more enlightened type.

But these members will not be committed to him. He is finding it difficult to keep his name before the public. He has not yet succeeded in getting on top of the international question to the extent that the millions who are concerned by the grim aspect of world affairs feel that Stassen is a man who can surely lead the way. And even if the Ohio and New York candidates kill each other off, neither faction would be likely to plump for Stassen as a compromise.

In fact, the outline of the future is already growing clear. One can almost predict now that the next Republican candidate will come either from Ohio, or from New York, or from one of the pastures of grey horses, but it is more important now to record a fact which is already obvious than to speculate on the future. Appalling confusion will be produced by Republican control of Congress with a Democrat in the White House. Yet the country will also have to suffer from the further confusion arising from the hungry rivalries within the Republican party itself.

Never Mind Ulcers, A Man Must Eat

By The Associated Press

HAGERSTOWN, Md. — Deputy W. H. Horn was surprised when a carton of foodstuffs arrived at the Washington county jail for a prisoner who had just started a 30-day sentence for drunkenness.

The carton contained five pounds of beef, a half-pound of frankfurters, a quart of milk, a pint of jelly, nine pieces of pie, a gallon of pea soup and a pound of butter. What surprised him, Horn said, was that the prisoner had ulcers of the stomach.

Facts About UN Meetings

THERE are 250 seats for the public at each performance, except on days when Kate Smith is attending. This is pretty small seating capacity for a big time attraction, but the delegates are smart. They know nothing is a success in New York until it is hard to get tickets.

* * *

There is this much comfort in seeking seats: you will never be told the whole thing has been sold out to a woman's club or that there will be no seats before late April.

* * *

The show is at least different. There are no free dishes. The Long Island Railroad runs trains every hour and the fare out is only 22 cents. Where else can you see an outdoor fight for less than two bits? You may also go by subway to Willets Point. (This is better if you are too excited to sit down, anyhow.)

* * *

There are also buses. The trip by bus will cure you of any idea the world is through with unnecessary roughness. Or you can go by taxi, in which case all world problems will be settled for you in advance by the driver.

* * *

There is a cafeteria on the premises. Gromyko will have nothing to do with the kitchen which assures an uninterrupted supply of food. No matter whether Pravda likes the coffee or not it will be available. The grub is pretty much American, but all food tastes so funny these days that with a little imagination it could be bortsch, tamales, smorgasborg or Turkish steak.

* * *

There are delegates from fifty-one nations in all sizes, shapes and conditions. (This is seven nations fewer than are on exhibition daily in the subway.—Ed. note.)

* * *

Some of the great men of the earth are open to inspection. Vyacheslav Molotov and Andrei Gromyko may be the big attractions, but Ernest Bevin will be around, too, as will Jan Masaryk from Czechoslovakia, Wellington Koo from China, Gen. Carlos Romulo from the Philippines, and Field Marshall Jan Smuts from South Africa.

* * *

Personally, we will stand a long time in front of Marshall Smuts, a great old warrior and man of peace. We think he has more horse sense than anybody else present. Prince Faisal al Saud from Saudi Arabia will interest us from a decorative sense and we will want to get a close-up view of Mohammed Hussein Heikal Pasha from Egypt (there is a chance he may have brought a camel), Ali Jawa Ayubi of Iraq and the delegate from Ethiopia, Blatta Ephrem T. Mehden, although we had rather set our minds on Haile Selassie.

* * *

The curtain goes up daily at 11 o'clock. Then at 1:30 everybody quits until 3. The afternoon session is from 3 to 6. Whatever the League has attained so far it has set a swell standard for working hours.

* * *

There will be contrary to reports, no strip tease just to preserve the world fair spirit.

CANDID CANDIDATES

The candidates I favor
Give boastful talks, and sure;
For every ill that plagues us
They have a brilliant cure.
They run the opposition
With words I love to quote—
But if I thought they meant it
They'd never get my vote.

PIERRE

The joke of the week took place, we hear, at the Waldorf-Astoria. Mr. Molotov, needing a little rest, put a sign "Do Not Disturb" on the door of a room temporarily assigned to him. Somebody passing through the corridor ran a pencil through it and scrawled "Vetoed."

We stand at Armageddon and we "bottle" for inflation.

David F. Lilienthal has been named head of the nation's atomic control board. This amounts to an official commission not to sleep nights.

No parking is allowed in New York now on Fifth, Madison or Lexington Avenues between 23rd and 59th Streets. These thoroughfares now look strangely like streets instead of garages. It is now possible to stand in any of these avenues and be pretty sure to see something move.

A Tragic Incident

By TRUMAN TWILL

Recent widespread publication of a photograph purporting to be of this column's author has caused considerable mental anguish among readers.

The author himself has suffered no pain, having been deadened by years of looking into the mirror while shaving, adjusting neckties and trying on a new hat every third year, unless it happened to be Leap Year and in that event skipping a year.

Readers' suffering has been expressed in comments like these, some of them made directly, others picked up secondhand by scouts and passed along: "Whazzat?" . . . "Mama, the FBI must have killed Gargles" . . . "Holy cow" . . . "Don't tell me, let me guess" . . . "Another crime wave" . . . "Sure enough, a displaced person" . . . "Whyn't they feed that guy?" . . . "What's he wanted for?" . . . "A crime wave was to be expected after the war" . . . "The Indians sure scalped Old Crow, didn't they?" . . . "What do you suppose they gave him to make him look that way?" . . . and so on.

This is only a general idea of the readers' suffering. Some of it was more acute, which is to say that readers felt so bad they called to offer condolences. A few, looking into the future, said it didn't matter, that lots of people had looked the same way but later had straightened out and looked as good as anyone else with the passage of time. Insurance men, bless their commissions, were right on the job, especially those whose companies had taken risks with their eyes open. They wanted to be sure the body was still warm.

All this made no impression on the victim. In the first place, the victim knows what he looks like. In the second place—and this is revealing hitherto undisclosed information — the picture in question was not of him but of a passerby who walked past the camera at a critical moment and promptly disappeared.

No one ever had seen this interloper before and he has not been heard of since. Obviously the police must have been hard on his trail. Almost as obviously, he was disguised to throw shoopers off the scent. It might have been Adolf Hitler, for instance, or one of the London jewel thieves.

In actual truth, Truman Twill does not look like any picture ever published. He is tall, lithe and sinewy. His features are dignified and pleasant, like the men in the whisky ads. He is, to quote the words of the one who should know him best — she says, holding her sides and roaring with unladylike laughter—a kind of poor man's Van Johnson.

This will warn the public not to be misled. Do not let this thing throw you. Go on with your dreams. Let it never be said an accident in the picture gallery was held against an innocent victim. Why not forget the whole thing and go back to being the way we were before . . . friendly and ignorant?

POLITICAL SPEAKERS ADDRESS CIO RALLY

Columbus, Cardington Men on Program Here.

At a labor rally Sunday afternoon in The Star auditorium, Jacob Clayman of Columbus, legislative representative of the Ohio CIO council, attacked Congressman Frederick C. Smith, Republican and candidate for reelection from the Eighth congressional district, for the congressman's stand on several governmental issues and denied charges of Smith that the CIO was communistic.

Attendance was estimated at 200.

General theme of the meeting was "Prevailing Conditions and Suggested Means of Improving Them." Another speaker on the program was Harry Francis of near Cardington, representing the railroad brotherhood. He also denied communistic charges brought against the CIO.

Three Democratic candidates were introduced at the rally. They were John T. Siemon, farmer of near Kenton, congress nominee for the Eighth district; Otis R. McCloskey of Marion, candidate for state representative and David Nolan of Huntsville, candidate for state senator.

Ellis Oiler, head of the Marion Industrial Union council, presided and introduced the speakers.

Hardin Co. Forecasts Large Vote Tomorrow

Special to The Star

KENTON, Nov. 4—With election only one day away, Hardin county prepared to go to the polls in one of the biggest turnouts of voters in the last several years. Fourteen special issues, bond issues and levies affecting nearly every voting precinct in the county was expected to bring out the heavy vote. Coupled with the 14 issues were three county contests and three district contests besides the state ticket.

Election officials forecast that final returns would not be in until early Wednesday morning.

During the earlier part of the 19th Century, many of the settlers in eastern New Mexico were called "Comancheros" because of their illegal buying of stolen cattle from the Comanches.

The Voters of 69 Ohio cities will pass on extra levies for school operating expenses and teachers salaries this fall. Marion's financial ability to compete with other cities for good teachers will be even worse than it is now if we fail to pass this school levy. This will cause an even lowering standard of education for our children.

"I want you to get a better break than I had. School's a mighty important thing."

Good schools are important but they can be only as good as the teachers in them.

We cannot rob this boy of the right to prepare for the better things in life . . . of every opportunity to succeed! Yet, unless we recognize the fact that other cities are paying salaries up to 48% more than we are . . . that Marion is spending 20% less for each of her school children than the average city . . . our children will not have the opportu... so hard to preserve!

We must pay our teachers ... wage . . . and in order to ... the School Levy!

THE FIRST of a series of parties planned for Miss Virginia Mathiot, a bride-elect of Nov. 27, was given when Miss Maxine Schlagenhauf entertained with a 1 o'clock luncheon and kitchen shower Saturday at Hotel Harding. Miss Mathiot's chosen colors of blue and yellow were carried out in the table centerpiece of flowers and tall yellow tapers The place cards were miniature sets of a knife, fork and spoon in yellow. The honored guest was presented a corsage of yellow baby mums.

Miss Mathiot found her gifts around a miniature yellow and white cupboard and were attached to it by streamers. On the shelves and in the drawers of the cupboard were small kitchen utensils.

Present with Miss Mathiot, who is the fiancee of Howard Harding Diehl, were Mrs. Walter E Mathiot, mother of the bride-elect, Mrs. Carl Sheehe, Mrs. Forrest Sharrock Jr., Mrs. Robert Vance, Mrs. Robert Castner, Mrs. Stuart Norris, Mrs Donald Renwick, Mrs Marty Maner, Mrs. Ray Schlagenhauf, and Misses Patricia Lawler, Betty Hawkins, and Marion LaMarche.

THE annual husband's party of the Child Study club was held Saturday evening at Boy Scout Camp Owens near Marion. A covered dish supper was served and decorations were in keeping with Halloween. The committees in charge included Mrs. Mary Stonebraker, Mrs Janice Pfeiffer, Mrs. Leila Aechelman, and Mrs Dorothy Smith. Entertainment consisted of group singing and bridge. Guests were Mr. and Mrs. Ralph Simpson, Mr. and Mrs. Hugh Hay, Robert Aeschelman, Mark Bowe, Robert Bush, Ray Campbell, Harold Carroll, Perry Cooper, Donald Crumrine, Jack Danner, Richard Denman, Richard Eicher, Jack Gickler, John Gillis, Louis Michel, DeWitt Mills, Robert Penniston, Lavern Pfeiffer, Kenneth Roberts, Joseph Scandling, Robert Smith, William Stonebraker, Lowell Williams, Ellis Wilson and Merle Zieg The next meeting will be held in the home of Mrs. Kay Denman.

A birthday dinner at the home of Mrs. Fred Preuninger of 202 Blaine avenue Friday was in celebration of the fifth anniversary of her grandaughter, Linda Kay Robinson. Hostesses were Mrs. Preuninger and the celebrant's mother, Mrs. Virginia Robinson. A birthday cake decorated with five lighted candles, was the table centerpiece. The celebrant received a numbr of gifts. Present were Sherry Cutlip, May, Ethel, Gloria and Jacquelyn Gruber, Janis Jones, Sandra and Judy Jackson, Tamara Agnew, Rosemary and Janet Colegrove, Gerry Sells and Philip Preuninger, Mrs. Roy Waters, Mrs Ronald Agnew, Mrs Gene Cutlip and Mrs. Donald Preuninger.

Miss Patricia Ann Cusick, a bride-elect of Nov. 16, was complimented with a miscellaneous shower Wednesday evening when Mrs. Cecilia Hess, Mrs. Lelah Shenefield and Miss Kathryn English entertained at the latter's home at 354 Mary street. The rooms were decorated in blue and white, the honored guest's chosen colors, and games and contests provided entertainment. Favors were miniature corsages of delphinium and mums Miss Cusick's marriage to Robert Clements of Upper Sandusky will take place in the St. Mary rectory.

Present with the honored guest were Mrs R C. Clements and Mrs. Forrest Little of Upper Sandusky, Mrs. Carl Clime of Bucyrus, Mrs Z A. Clements, Mrs Frank Daum, Miss Jeanne Daum, Mrs. Forrest Sharrock, Miss Florence McKinney, Mrs Agnes Lowinger, Miss Bonnie Musgrave, Miss Virginia Griffith, Mrs. James Cusick, Miss Winifred English and Mrs. Cora English.

Mr. and Mrs John McNamee of Richwood entertained Thursday at their home in honor of the fifth birthday anniversary of their son. Those present were Mr. and Mrs. Clarence Patterson of Richwood and Mr and Mrs. Richard Martin of LaRue.

Halloween motifs decorated the home of Mr. and Mrs Carl M. Hughes near Marion for a masquerade party Tuesday evening Cards and games provided entertainment and several guitar numbers were presented by Glenn and Lloyd Caskey. Refreshments of pumpkin pie, cider and doughnuts were served.

A shower honoring Mrs Paul Elsey, a recent bride, was an event of last Tuesday evening at the home of Mrs. C. Robert Eddy of 127 McWilliams court The shower was given by employes of the Henney and Cooper store drug department for Mrs. Elsey, the former Miss Jean Whitehead, who was employed until recently as a clerk at the drug store. She and Mr. Elsey were married Oct. 18. Her gifts were found under a pink satin and lace parasol. Contract bridge was played, with high score going to Miss Esther Virden, and consolation to Miss Elsie Weber A midnight buffet supper was served, with the decorations in a Mexican design Present also were Mrs Millard Diehl, Miss Mary Mildred Conner, Mrs Eula Rhoads and Miss Mabel Brewer.

proclamation, "We came as conquerors not as liberators," a mistake.

"The mass of bewildered, dazed, stupefied citizens everywhere hailed us as deliverers from the most brutal tyranny that Germany had ever suffered in her long history. From all sides came offers of cooperation. Not an act of sabotage was committed. Military government officers agreed it was the easiest thing in the world to govern the totally beaten foe"

But the above order, Mr Lochner contended, "was a psychological mistake which will lengthen the period of American occupation appreciably and will engage the public exchequer much longer than should have been necessary. The policy makers in Washington should have forseen this and framed a different type of proclamation, one that would have recognized that the unspeakable bestiality of the Hitler regime made the missionary task of converting Germany into a democracy relatively easy, provided the approach was one of delivery from evil rather than pure conquest"

Nine-Point Program

Mr. Lochner advocated a nine-point program which he believes will be effective in pursuading the Germans to democratic ways of thinking It is as follows.

1. Change purely punitive policies to curative, except in cases of activist Nazis, wherever in military government they have not been invoked.
2. Draw a distinct line between the military occupation and civilian administration of Germany by American elements, restricting the occupation troops to duties and functions having to do solely with the maintenance of public safety and security.
3. Make the study of the German language mandatory for every military government officer.
4. Abandon gestapo methods of nightly arrest without warrant
5. Select older, more mature men for the constabulary in Germany.
6. Tear down the barriers which prevent access on the part of the German to the literature, writings, and discussions of American democracy.
7. Bring leaders of a democratic Germany to the United States so that they can see democracy in action.
8. Give more recognition to the proven anti-Nazis.
9. Carry out the pledge of the Potsdam conference for the economic unification of Germany

Mr. Lochner was introduced by Paul Hunt, who also acted as moderator during a discussion period following the talk. Mr. Lochner's answers to questions during this period included the following (1) No "strong" man is emerging in German politics today; (2) Schacht and Von Papen, released by the Nuernburg court, escaped on technicalities and are as guilty as those sentenced; (3) A Russian people's rightward swing is possible, and is apparently feared by Russian leaders, who forbid fraternization between Russian and western Allies troops; (4) There is no starvation in Germany, but standards of nutrition are low.

Couple At Kenton Married 50 Years

The golden wedding anniversary of Mr. and Mrs. Ralph Lumbard of Kenton was celebrated Sunday, Oct. 27, with a family dinner at noon followed by open house in the afternoon and evening at the country home of their daughter, Mrs. Dewey Haynes, east of Kenton. The Haynes residence s the home place of Mrs. Lumbard and the couple were married in that same home 50 years ago.

Arrangements of yellow and white chrysanthemums decorated the rooms for the occasion The table at noon was centered with a large wedding cake decorated with yellow roses. Among the approximately 100 friends and neighbors who called during the afternoon and evening were three persons who attended the wedding of the celebrants 50 years ago. They were Grant Kennedy, Lillie Kennedy and Edna Schriver Bowers Vocal selections were given by Spear Hastings

Both Mr. and Mrs. Lumoard are in good health. Mrs. Lumbard is 75 and her husband is 82 years of age. Guests were present from Upper Sandusky, Forest, Kenton, LaRue, Santa Barbara, Calif, and Akron.

2 PAROLEES HELD IN TRAIN JEWEL THEFT

By The Associated Press

CINCINNATI, Nov. 4—Two parolees from the federal reformatory at Chillicothe awaited arraignment today on charges connected with stealing jewelry from Mrs. Charles R. Hook Jr., Baltimore and Cincinnati socialite, aboard a passenger train within an hour after the pair had been released from the penal institution.

Theft of five valuable rings, a pearl necklace and a bracelet from Mrs. Hook's luggage occurred early Friday but was not disclosed until late Saturday by Capt. I. R. Jones of the Baltimore and Ohio railroad police.

Mrs. Hook is the daughter of Harold W. Nichols, president of the Fox Paper Co. here and daughter-in-law of Charles R. Hook, president of the American Rolling Mill Co. at Middletown.

The railroad police captain said the parolees, Robert Earl Stamper, 19, Richmond, Ky. and Albert Layland Jones, 18, Atlanta, Ga. admitted the theft in a signed statement. They will be hailed before the U. S. commissioner, probably today, on charges of theft from an interstate shipment, he said.

Mrs. Hook would not estimate the value of the jewelry but George D. King Jr., special agent in charge of the Cincinnati office, placed it at $2,000.

Captain Jones said two platinum rings set with diamonds and sapphires were recovered but that the ex-convicts told him they had flushed the remainder of the jewelry down a washroom commode as the train sped between Greenfield and Midland City.

The officer quoted the youths as saying they took the jewelry about 5:40 a. m., 23 minutes after they boarded the train at Chillicothe.

U. S. Aid to New Housing Sites Seen by Official

By The Associated Press

WASHINGTON, Nov. 4 — With cities running out of improved land, government financial help may be proposed to permit extending sewer, water and other facilities to potential home sites.

Housing Expediter Wilson Wyatt declared in his monthly report issued over the weekend that to a "far greater degree" than during 1946, new houses this year will have to be built on raw land in the outskirts of cities.

FACE THE FACTS

Ohio Farmers, as well as those of the Nation as a whole, can face the future with the assurance of long-time price support legislation which is unprecedented in agricultural history.

This is the so-called Steagall amendment, adopted in 1941 and extended by later enactments. It requires that prices of most farm products be supported at 90 percent of parity or more until at least two years (after January the 1) following the official end of the war - or - until at least January 1, 1949.

By a combination of loans, purchases and payments, the government is prepared to maintain this "floor" under the farmers return. While farm product prices generally are above the floor at present, the assurance is there that the general average price for each commodity will not be allowed to drop below specified levels.

Importance of this legislation is evident from the fact that after World War I farm product prices in the nation as a whole dropped 41 per cent in just one year, from 1920 to 1921.

Farmers: Look At The Record

In the field of agriculture the achievements of the Roosevelt and Truman administrations are outstanding.
Farm income is seven times as great today as it was in 1932.
Farm assets are 10 times as great as liabilities.
Farm products are at an All-time high.
Farm foreclosures last year were only one-twentieth of the number in 1932.
Farm mortgage indebtedness has been reduced by almost one-half.
Far-sighted soil conservation measures are increasing fertility.

Here are the average prices for some of the important farm commodities in Ohio in 1946, compared with prewar, the depression-low year, and the 1929 "boom":

Commodity and Unit		Dollars			
		1929	1932	1939	1946
Corn	per bu.	.80	.32	.64	1.15
Wheat	per bu.	1.14	.47	.73	1.61
All hay	per ton	9.60	4.50	7.40	19.50
Soybeans	per bu.	2.00	.53	.82	2.05
Oats	per bu.	.44	.18	.34	.71
Cattle, beef	per cwt.	10.10	4.85	7.90	13.00
Calves, veal	per cwt.	12.90	5.60	9.50	14.30
Hogs	per cwt.	10.00	3.70	6.70	14.40
Sheep	per cwt.	6.50	2.15	3.20	5.60
Lambs	per cwt.	12.00	4.85	8.20	13.60
Milk	per 100 lb.	2.57	1.30	1.71	3.22
Chickens	per lb.	.245	.124	.146	.285
Eggs	per doz.	.315	.141	.172	.368

Farmers: The Question Is . . .

Does American agriculture want to return to the widespread bankruptcy and foreclosures experienced under the last Republican administration? We think not.

Farmers: The Answer Is . . .

On Election Day when you go to the polls, cast your ballot for the Democratic Party - the Farmer's Party - the Working Man's party - the party of the Liberal. In short, it is the Nation's Party. Vote the straight Democratic ticket.

CAR AND RUNAWAY HORSE IN COLLISION

Animal Is Injured in Unusual Accident West of Marion.

A horse jumping from a ditch was struck by a car driven by Mrs. Flower Hamilton of Lima on Route 30-S about 13 miles west of Marion Saturday at 10:15 p. m., the state patrol reported.

Mrs. Hamilton told patrolmen she was driving west when the horse clambered onto the road and she was unable to avoid hitting it because of an oncoming car. The front of her car was considerably damaged, but the horse did not appear to be seriously hurt. A 10-inch cut on its belly and a six-inch laceration on its hip were sutured by a veterinarian. Its owner is Clem Moore of near LaRue.

Three persons suffered slight injuries in a collision at the junction of Routes 21 and 47 at Sumersville in Union county Sunday at 5:30; Howard C. Schmucker, 46, of Alliance and Milburn E. Baker, 28, of Columbus were drivers of the cars.

Injured were Thelma Baker, 20, lacerations of the head; Verna Schmucker, 42, lacerations of the head, and Lorene Schmucker, 8, a cut on the right arm. Neither car was badly damaged.

City police reported that Oscar Gates, 10, son of Mr. and Mrs. Ned Gates Jr. of 369 Owens street, suffered a slight injury to his foot Sunday at 11:45 a. m. when he was struck by an automobile while riding a bicycle. The car was driven by William W. Collins, 74, of 282 Leader street. The accident occurred at the corner of Leader and Chestnut street.

Cars driven by Fay Titus, 54, of 446 West Church street and William Eckles, 40, of Radnor collided at Main and Center streets Saturday at 8 a.m. Damage was minor and there were no injuries.

data with their local rental offices by the end of the year.

These establishments will be classed separately as transient hotels, residential hotels, rooming houses or motor courts. Their separation from other rental units was viewed by congressmen who supported the directive as a possible means for more easily qualifying them for rent increases or decontrol.

In another action, OPA allowed some increases in price ceilings of certain cotton textile commodities if they are staple produced in the same style as in March, 1942.

The agency said the amount of increase could not be estimated, but would apply to printed table cloths, tufted bedspreads, domestic laundry bags, hooded pillow covers, mattress covers, ironing board covers and similar items.

Cuban Sugar Reported Bursting Warehouses

By The Associated Press

LOWELL, Mass., Nov. 4—Congresswoman Edith Nourse Rogers (R-Mass) said today Cuban warehouses of American firms were "bursting with sugar" and charged there was no reason for a shortage in this country.

"New York sugar firms are exporting from their Cuban warehouses hundred pound bags of sugar to every country in the world except the United States," she said in a statement.

Mrs. Rogers, claiming she had no sugar in her own household, said she had telegraphed a protest to the White House demanding the President "take some action to remedy the situation."

Directors Elected By Chamber of Commerce

Names of six new directors of the Marion Chamber of Commerce were announced today by the Chamber office, following a recent election by members of the organization.

New directors elected for three-year terms are Harold J. Grigsby, Frank M. Foster, E. E. Holt, Robert T. Mason and Howard F. Guthery. Elected for a two-year term to fill the unexpired term of the late H. Alfred Donithen was W. Hoover Brown.

The Chamber of Commerce board of directors will meet Tuesday noon in Hotel Harding for their annual election of officers.

ATOM BOMB. This is an artist's conception of the atom bomb as published by the London Daily Express with an article by Chapman Pincher of the Express. The sketch shows a conventional bomb casing with small tail fins and two "drogues"—parachutes open at each end, which, Pincher said, operated to slow the descent for better control of a time fuse mechanism operating a detonator. Firemen Find Plenty Of Smoke but No Fire

Where there's smoke there isn't necessarily fire — it might be fumigation, residents of second floor apartments at 494 West Center street learned Sunday morning about 4:20.

They called firemen to investigate smoke coming up through the floor from the room occupied by the Shamrock Cafe, but lighted fumigation candles left to burn during the night were found to be the cause of the smoke.

Firemen answered the third false alarm within a week at Box 26 at Silver and Thompson streets this morning at 12:45.

Baltimore Bombing Claims 5th Victim

By The Associated Press

BALTIMORE, Nov. 4 — The mysterious bombing of a waterfront rooming house last Thursday claimed its fifth victim last night with the death of another seaman injured in the blast, Antonio Mariano.

Four seamen were killed in the bombing and five other persons were injured, four critically.

Police, continuing their investigation, arrested two men for questioning yesterday.

SEEKS UN AID. Turkish delegate Huseyin Ragip Baydur explains details of his plea to the UN General Assembly in Flushing Meadows, N. Y., that Turkey be aided in preventing war over the Dardanelles. Without mentioning the Straits or Russia, Baydur brought out his point when he recalled President Truman's assurance that the UN would not tolerate the use of force by any power in the world.

One worker out of four in America was a woman in 1940, compared with one out of five in 1920, and one out of seven in 1870.

FALL FROM HAYMOW FATAL IN UNION CO.

Columbus Man Fatally Injured When Pulley Breaks.

Special to The Star

MARYSVILLE, Nov. 4—A. B. Cole of Columbus, died in White Cross hospital Sunday afternoon of head injuries suffered when he fell 15 feet when a pulley broke as he was climbing a hay rope in a barn on the Glenn Gabriel farm about five miles northeast of Marysville, near Ostrander. The accident occurred about 4:30 a. m. yesterday. Sheriff Roose of Union county said Cole had been visiting relatives at the farm. He was taken to the Columbus hospital in the William Faulkner ambulance.

Surviving are his mother, Mrs. Mary S. Cole of Columbus, a brother, A. J. Cole of Columbus, and a sister, Mrs. T. J. Caseo of Albany, N. Y.

Funeral services and burial will be in Westerville with the Fichner funeral home of that city in charge. Complete arrangements had not been made.

BIG MEDICINE FAILS

By The Associated Press

MADRAS, Ore., Nov. 4—The white man's faith in his traditional source of weather information—from Chief Tommy Thompson of the Celilo tribes—has dimmed. When a white neighbor asked the venerable chief what could be expected soon in weather, the chief gravely pronounced: "Don't know. My radio's broke."

MANUFACTURER FINED

By The Associated Press

CLEVELAND, Nov. 4—Federal Judge Robert N. Wilkin today fined John A. Ogren of Chicago, former president of the Manufacturers Clearing House, $3,000 on a charge of conspiracy to fix prices and monopolize sale of plumbing equipment in violation of the Sherman anti-trust act.

Making a new automobile requires 4,500 pounds of coal.

NOBEL WINNER. Prof. Hermann J. Muller, famed Indiana university biologist, has won the 1946 Nobel prize in medicine for his revolutionary research in genetics. The 56-year-old doctor was awarded the prize for his work in the production of mutations, or changing hereditary characteristics by X-ray. With Columbia university degrees in medicine and philosophy, Muller studied in Germany until 1933, when he went to Moscow for four years as senior geneticist at the Institute of Genetics. In 1941 he went to the University of Edinburgh in Scotland, and in 1945 came to Bloomington, Ind.

HOPE'S "STAND OUT." You've heard of stand-ins in Hollywood, but Jack Robbins (above) is probably the film capital's only "stand-out." He doubles for comedian Bob Hope in most scenes while lights are being arranged. The exceptions come when the script calls for love scenes with the leading lady. That's when Hope humorously takes over and Robbins becomes the "stand-out."

DRIVER FINED $15

Edgar F. Bender, 22, of 224 Elm street was fined $15 and costs today in municipal court when he pleaded guilty to a charge of reckless driving. He was cited on West Center street Sunday at 1:45 a. m.

PALESTINE TENSION HIGH

EARTHQUAKE RECORDED

By The Associated Press

WESTON, Mass., Nov. 4 — A moderately strong earthquake about 4,380 miles south of Boston, probably in northern Chile, was recorded at 2:43:12 p. m. yesterday on the Weston college seismograph, Rev. Daniel Linehan, S. J., reported today. The disturbance lasted for three hours.

OHIO EDITOR DIES

By The Associated Press

COLUMBUS, O., Nov. 4—Paul V. Miller, 48, editor of the Madison Democrat and news editor of the Madison County Press, London, O., died today in Mt. Carmel hospital here. He had been seriously ill about a week.

Some of the prehistoric Pueblo Indians of New Mexico constructed their houses with several hundred rooms on the ground floor and terraced them to three and four stories. These might be called America's first apartment houses.

AUDIT OF STARK CO. AGED AID ORDERED

By The Associated Press

COLUMBUS, O., Nov. 4 — State Auditor Joseph T. Ferguson today ordered an immediate audit and investigation of all accounts of the Stark county office of the state division of aid for the aged.

Ferguson said "several irregularities uncovered during a preliminary audit" in the central offices here prompted the move.

He said the Stark county office would be the first checked in connection with a general review of all Ohio old age pension trust accounts started by Ferguson in July.

He said a preliminary check showed "gross mismanagement of old age pension properties and money from 1939 through 1945." J. C. Neely, manager of the Stark county branch during that period, resigned in 1945, Ferguson said.

The state auditor declared "one of the most flagrant actions" in Stark county involved a division officer who as a trustee for a pensioner deposited $3,500 of the pensioner's money in a Canton bank and withdrew that money over a period of time while permitting his charge to remain on state pension rolls.

Commercial Steel Co. Foremen Hold Dinner

Present business and labor conditions were discussed by John Lacey, plant manager of Commercial Steel Casting Co., at the monthly dinner meeting of the company's foremen's club Saturday night at Hotel Harding.

Mr. Lacey told the approximately 25 foremen present that although production here is satisfactory, production problems elsewhere have caused the local company's customers to pile up large inventories and cut down their demand for castings at present. Labor relations in the local plant have been good, he said.

BILBO FOE DIES

By The Associated Press

JACKSON, Miss., Nov. 4 — Thomas L. Bailey, 58, governor of Mississippi, died Saturday night. A long-time political opponent of Senator Theodore G. Bilbo, Bailey was a member of the state house of representatives from 1915 to 1944, when he became governor.

LAUDS CAMP FIRE GIRLS

CLEVELAND, Nov. 4 — Camp Fire Girls are making a great contribution to the nation's welfare by offering young girls opportunities for material, spiritual and moral development, President Truman said in a message to the organization's national conference here.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

LOWELL HEDGES HEADS JUNIOR FAIR BOARD

Officers Elected at Meeting in County Agent's Office.

Lowell Hedges of Pleasant township, a graduate of Pleasant township school last spring, was elected president of the Marion county junior fair board at a meeting Saturday night in the office of County Agricultural Agent Arthur H. Smith.

The youth replaces Miss Marjorie Kreis of Pleasant township, as president of the junior fair board.

Other officers elected at Saturday night's reorganization meeting were Howard Davids of Prospect, vice president; Miss Beulah Murphy of Meeker, secretary, and Miss Mildred Greene of Morral, treasurer. The officers will serve for one year.

Junior fair board members discussed junior activities at the 1946 Marion county fair and made suggestions for improving their program next year.

OHIO

(Continued from Page 1)

ator James W. Huffman, a Columbus attorney who was appointed to the office when Senator Harold H. Burton, a Republican, resigned last year to become a member of the U. S. supreme court.

Lausche's Republican opponent is Thomas J. Herbert, a Cleveland lawyer and former attorney general.

The office of state auditor, now occupied by Joseph T. Ferguson, a Democrat, is not at stake. Unlike other state office holders, he is serving a four-year term.

In campaign issues Republicans have sought with their "Had Enough?" slogan to capitalize on dissatisfaction engendered by meat and consumer goods shortages. Bricker, dwelling on the CIO political action committee's indorsement of Senator Huffman, has contended that Communists dominate the PAC and the New Deal.

Ridiculing the Communist issue, Huffman has told the voters to compare their present standard of living and high income with conditions which existed when the last Republican national administration ended in the depression days of 1933. The Republicans also have been accused of spending huge sums in the current campaign.

In the campaign for governor, Lausche and Herbert largely have concerned themselves with the state department administration, with the Democratic candidate contending he has done a good job and the Rpeublican nominee disputing this and promising to do better.

Last Minute Bids

The battle for ballots comes to a close with Lausche, Herbert and Huffman making a last minute bid today for support in the populous Cleveland area and Bricker electioneering in Columbus.

Tomorrow gubernatorial candidates Lausche and Herbert will cast their ballots at 8 a. m. in the same precinct in Cleveland, Bricker will vote in Upper Arlington and Huffman in Bexley, both suburbs of Columbus.

Voters will find the Social Labor party on the ballot for the first time since 1932 when its candidates polled less than 2,000 votes each.

Ohio's 9,352 polling places open at 6:30 a. m. and close at 6:30 p. m.

The full ticket of candidates for statewide offices are:

(D designates Democrat, R, Republican, and X, incumbent):

Governor—Frank J. Lausche of Cleveland (D-X); Thomas J. Herbert of Cleveland (R) and Arla A. Albaugh of Massillon, Social-Labor.

—U. S. Senator (six-year term)—James W. Huffman of Columbus (D-X); John W. Bricker of Columbus (R), and William Farkas of Akron, Social Labor.

U. S. Senator (unexpired term)—Henry P. Webber of Lorain (D) and Kingsley A. Taft of Shaker Heights (R).

Congressman-at-Large — William M. Boyd of Cleveland (D) and George M. Bender of Cleveland Heights (R-X).

Lieutenant Governor — George D. Nye of Waverly (D-X); Paul M. Herbert of Columbus (R) and Peter M. Kapitz of Cleveland, Social Labor.

Secretary of State—Charles F. Sweeney of Lakewood (D) and Edward J. Hummel of Cincinnati (R-X).

Treasurer of State—James T. Welsh of Steubenville (D) and Don H. Ebright of Akron (R-X).

Attorney General—Timothy S. Hogan of Cincinnati (D) and Hugh S. Jenkins of Youngstown (R-X).

Judge of Ohio Supreme Court (Jan. 1 term)—Charles B. Zimmerman of Springfield (D-X) and Clinton DeWitt Boyd of Middletown (R).

Judge of Ohio Supreme Court (Jan. 2 term)—Herbert S. Duffy of Columbus (D) and Charles S. Bell of Cincinnati (R-X).

Big Cuyahoga County Vote Turn-Out Seen

Special to The Star

CLEVELAND, Nov. 4—Republican and Democratic leaders today estimated that possibly 450,000 persons may vote in Cuyahoga county tomorrow if weather is good.

This number would be about 177,000 greater than the turnout for the last previous "off year" election in 1942 but more than 100,000 below the presidential election balloting of 1944.

"Life With Father" Portrays Life of Typical U. S. Family

It has been said that "Life With Father," the American comedy classic which Marion will have the privilege of seeing on Wednesday, Nov. 6, at the Palace Theater, is concerned with the "battle of the sexes" that goes on in every home. This is a crude phrase, but it does describe the major theme of this successful and hilarious play about a typical American family.

Clarence and Vinnie Day, better known simply as father and Vinnie, represent the opposing forces in this humorous war. They carry on their struggle to have their own way, each over the other, in the civilized and genteel way that characterized a well-bred family in the 1880's. Yet who is to say that this clash has not been going on since Eve persuaded Adam to eat the apple and Delila lulled Samson to sleep.

Argument Won't End.

That the fight is still going on will be proved when this communities' fathers and mothers go home after seeing the play arguing as to who came out on top in the action that took place on stage.

Father always wants to have things done his way—the way of logic and reason. Mother, or Vinnie, falls back on instinct. When the argument is over money, for example, Vinnie's ideas play wonderfully strange tricks with her mathematics. This both baffles and enrages Father, who cries "Oh, God" with the air of a wounded lion, because he cannot make Vinnie understand that two and two make four.

As Father gets madder Vinnie grows quieter and firmer in her curious arguments until in sheer desperation he retires, muttering to himself, to his easy chair and the shelter of his daily paper. Father's reason has met its Waterloo coming up against Vinnie's intuition.

Provide Funny Moments.

These arguments are characteristic of "Life With Father" and provide some of the funniest moments in the play. They can be laughed at with the utmost good humor because beneath this squabbling is a solid foundation of love and family affection which can never be destroyed. Father may not understand why Vinnie buys a useless china dog and may quarrel with her over such needless expense, but he is all concern when she is suddenly taken ill. And Vinnie puts up with Father's petty tyrannies because she genuinely worships him—and because she knows she can get around him any time she wants to!

Other episodes and aspects of family life in the Day household are just as productive of the same warm-hearted laughter as Father and Vinnie's bickering. For some people the most uproarious scene in the play is that in which Father attempts to tell his eldest son "all about women." But equally comical are Father's conflicts with his minister, because church-going Father is convinced that the one thing religion should leave alone is a man's soul!

Special Service Held by W.S.C.S. at LaRue

Special to The Star

LARUE—In observance of the week of prayer and self-denial, special services were held Wednesday evening by the LaRue Methodist W.S.C.S. at the church.

Mrs. C A Hutchison presented the worship service and was in charge of the special week of prayer program which included a vocal solo by Mrs Herbert Moore, short talks on India by Mrs. T. M. McElheny and Mrs. Rowland McElheny, and brief discussions of Vashti mission school by Mrs. J. W. Horne and Frances DePauw school by Mrs. Ray Spracklin.

A review of the W.S.C.S. study book was presented by Mrs Albert Amstutz. Miss Lena Dale Mulvaine was organist for group singing. Miss Margaret Selanders assisted in plans for the program.

Bucyrus Accidents Now Total Nearly 200

Special to The Star

BUCYRUS, Nov. 4 — Police added two accidents to the docket Thursday, one taking place at the Mansfield and Walnut street intersection and the other in the 1100 block on East Mansfield street, bring the total accidents to date this year to 194.

Cars driven by Earl R. White, and Miss Ruth LaNier, both of Bucyrus, were involved in the former collision which occured when Miss LaNier was reported to have driven into the intersection in front of the White car. Both cars were damaged.

The other accident involved a parked car belonging to Richard W. Magers which was struck from the rear by a car operated by George Williams, Williams told police he applied the brakes and struck the rear of the parked car to avoid a collision with an approaching truck. Both cars were badly damaged.

Test Dynafuel in your car—see if it doesn't give you

Smoother high-test action than premium-priced gasolines

... and you save up to 2¢ a gallon

We believe no gasoline, even premium-priced, can equal the incomparable smoothness of Dynafuel

HERE'S WHY: ALL gasolines (including Sunoco Dynafuel) are composed of "light" and "heavy" molecules. As the gasoline goes into the cylinders from the carburetor, some of the "heavy" molecules separate from the rest of the gasoline and go to certain cylinders which get most of the "heavy" molecules, while other cylinders get mostly "light" molecules.

IN MOST OTHER GASOLINES the "heavy" molecules are low in octane quality . . . but the "light" molecules are high octane. The cylinders receiving the low grade "heavy" molecules do not receive the same high knockless quality as other cylinders.

IN SUNOCO DYNAFUEL, all molecules, both "heavy" and "light," deliver equally high octane power. No matter whether a cylinder receives "light" or "heavy" molecules, that cylinder and all cylinders receive uniformly high knockless quality.

MARION ST. MARY SPILLS COLUMBUS ST. MARY 12 TO 7

Underdog Locals Trip Visitors In Final '46 Home Appearance

By GEORGE ROEST

Entering the contest as underdogs, Marion St. Mary, playing their last home game this season, Saturday night handed Columbus St. Mary their second defeat of the season, 12 to 7, against five straight wins. This was the second straight loss for the Columbus squad and brings the Marion parochials' record up to three wins, two ties and three losses. Approximately 3,000 turned out for the tilt.

Marion previously had been handicapped by the fact that their regular fullback John Baldauf and their regular tackle Jim Wagner were both hampered by injuries. Baldauf was out from the Tiffin Calvert game, not playing again until the Lima St. Rose contest. Wagner was not able to see much action in the three contests leading up to the Lima St. Rose game.

Saturday night these two players turned in probably the best individual performances. Fullback Baldauf cracked the line for consistent gains and showed well defensively while Wagner, besides scoring the winning touchdown, had a hand in stopping almost every play that was sent in his direction. Also for the Marion Irish, Ed Murphy and Bob Stuber stepped out of the hands of would-be tacklers to reel off their share of the yardage. The whole line turned in a real performance in rushing and blocking, Bob Tobin, Joe Maniaci and Dan Smith vying closely for honors with Wagner as outstanding linemen.

Irish Statistics

Substitute Stars

A substitute back, Griesenbrock, who did not enter the contest until late in the game, turned in probably the best ball toting performance for the Columbus gridders when, starting late in the third quarter, he sparked a drive from the Columbus 21 to the Maroon 19. Regular left half Kohler also reeled off sizable gains.

Scoring in the contest was unusual in that only once did a team score when play started with them on the offensive. In the initial quarter Baldauf recovered a Columbus fumble on the Columbus 26 to set up the first score.

Murphy made the longest gain of the drive in picking up 12 yards to the 14. Marion gained a first down on the four and after Baldauf plunged to within one foot of the line, quarterback Dick Schuler went over on first play of the second quarter on a quick opener.

Linemen Take Over

After that the linemen took over in making the scores. When Schuler received a bad pass from center and attempted to punt from the Marion 28, substitute right guard Kuhn blocked it and the ball rolled towards the Marion goal, left tackle Fitzmartin picking it up on about the three and carrying it over. Donnelly ran over left guard for the point, putting Columbus out in front until the third period.

The winning Marion touchdown was almost a repeat performance of the Columbus touchdown except that Herold was punting from the 27 and the center pass good.

The St. Mary line filtered through the Columbus defenses and led by Tobin and Wagner blocked the kick. Once more a free ball was rolling crazily toward the goal line and once more it was picked up by a tackle, Jim Wagner this time, again on about the three yard line and carried over.

Columbus Leads in Figures

Statistically the Columbus team gained a slight advantage netting through the air and on the ground 148 yards while Marion St. Mary netted 127 yards. Columbus picked up 11 first downs while Marion was able to make seven. Passing, the Columbus club was able to complete five out of seven for 51 yards, while Marion completed one out of three for only four yards.

This was a vital gain, though, in that it was on the fourth down and was received on the four to give Marion a first down. On the ground Marion was able to pick up 144 yards against 113 for the visitors. The locals lost 21 yards from scrimmage while Columbus St. Mary lost 16.

The deepest penetration of either club was made by Columbus, after receiving the kickoff after the first score. They drove to the Marion St. Mary one-yard line from their own 45. Instrumental in this drive was a pass, from the Marion 33 taken on the 18 and run to the 12 before being stopped. After Kohler gained a first down on the one-yard line Donnelly fumbled and Stuber recovered in the end zone.

Stuber Quick Kicks

Marion's deepest penetration came late in the game when Stuber quick-kicked to Donnelly from the Marion 23 and Tobin hit him causing him to fumble Wagner recovering on Columbus' 41. The local Irish drove to the visitors 19 and, with but a few seconds left, the Marion signal caller did not stop counting until the game ending whistle sounded.

In the first quarter Columbus was forced to punt only once that for 48 yards. Marion punted twice for 40 and 45 yards respectively and gained the ball from Columbus once by recovering a fumble.

Starting the second quarter the referee placed the ball the length of his foot from the invaders goal line. After the score Marion gained possession on the 20 after a fumble was recoveerd in the end zone. Donnelly did not cross the goal line on the play but rather the ball slid out of his hands as he tried to crack the line and it went into the end zone. Gains of 11 and seven yards by Murphy and Stuber put the ball on the Marion 37 but a clipping penalty forced them back to the 13. Schuler got 13 yards and Stuber got to the 28 from where the punt, giving Columbus their tally was blocked. Columbus did not attempt any punts in the second quarter, loosing the ball on an interception the other time after Marion had lost it in like manner.

In the third quarter Columbus was forced to punt three times, one good for 15 yards, the next blocked and turned into a touchdown and the third, partially blocked going only five yards to the Columbus 22. Marion punted only once and lost the ball on down late in the quarter on the Columbus 21.

In the final period after Columbus had driven to the Marion 19, Smith intercepted a pass on the 17 and made a seven-yard runback. The game was Marion's all the way from then on and although they quick-kicked from their 23, they gained to the Columbus 41 on the play when Tobin hit the receiver and Wagner got the ball. Baldauf was hurt in the last drive and Walter Anderson replaced him at the full back spot. Although in for a short while, Anderson smashed through the line to aid the drive.

Columbus Gridder Suffers Concussion

The most severe casualty of the night came when in pre-game warmups, Don Herrold of Columbus collided head-on with freshman halfback Robert Dolder.

Dolder was taken to the hospital and reported to have a moderately severe cerebral concussion. He was in a daze until early Sunday morning, but regained his senses and was sent back to Columbus yesterday.

BOB BRUGGE (11), Ohio State back knifes through tackle for 13 yards in the first quarter against Northwestern, starting a touchdown parade which saw Northwestern toppled from the unbeaten ranks and from the Big 9 leadership, at Evanston. The game produced a total of 66 points, and at least one touchdown a quarter by each team as the Buckeyes beat the Wildcats, 39 to 27, before a 46,000 homecoming crowd.

OSU'S BIXLER MAY BE THIRD TITLE WINNER

Buckeyes in Tightest Championship Race of Big 9.

By The Associated Press

CHICAGO, Nov. 4—Paul Orlando Bixler, the coach who was "kicked upstairs" at Ohio State, may become the third Buckeye mentor in five seasons to pilot a Western conference football champion.

His chameleon-like Buckeyes, who pummeled previously undefeated Northwestern, 39-27, Saturday, today headed for a showdown with Illinois, the current pace-setter, and runner-up Michigan in one of the hottest stretch drives ever produced by the Big Nine.

Those three teams, plus Northwestern whose surprising thumping by Bixler's Scarlet and Grey hustlers dumped the Wildcats into a third-place tie with the Buckeyes, all can clinch or share the championship with only two rounds remaining.

The Illini, squeezing past Iowa, 7-0, were pushed to the top of the conference heap subsequent to Northwestern's downfall, while Michigan moved into the runner-up spot with an entirely expected 21- trimming of last-place Minnesota.

Wisconsin achieved a .500 ranking along with Indiana and Iowa by edging Purdue, 24-20, while Indiana defeated Pittsburgh, 20-6, in a non-league test.

If, and it is a big if, the Buckeyes can hurdle Illinois at Champaign on Nov. 16 and Michigan at Columbus on Nov. 23, Bixler can claim the conference championship in whole or in part, depending how Northwestern fares in its final league games with Indiana and Illinois.

A title achievement would enable 39-year-old Bixler to match the championship performance of Paul Brown at Ohio State in 1942 and the 1944 conquest by Carroll Widdoes, the man who stepped down in favor of Bixler this season in a unique job swap with his former assistant.

Certainly the Buckeyes, who had dropped a 20-7 decision to Wisconsin and were held to a 14-14 deadlock by Purdue, appeared the class of the league last Saturday as they ripped Northwestern's line to shreds for six touchdowns. That happened only two weeks after the Wildcats handcuffed Michigan in a 14-14 tie.

Saturday's results:
Ohio State 39, Northwestern 27.
Illinois 7, Iowa 0.
Michigan 21, Minnesota 0.
Wisconsin 24, Purdue 20.
Indiana 20, Pittsburgh 6.

Next Saturday's games:
Purdue at Minnesota.
Iowa at Wisconsin.
Indiana at Northwestern.
Pittsburgh at Ohio State.
Michigan State at Michigan.
(Illinois has open date)

CENTRAL GRIDDERS TO TACKLE VERNON

Tonight undefeated, untied, and unscored on Central Junior High will meet Vernon's Scarlet and Grey at the stadium. From all appearances it looks as if the Uptowners will once again prove too much for the East Siders. In their first game, although Vernon held them to a lone safety in the first half, Central in the second half finished strongly scoring three touchdowns in the last half, two of them in the last quarter to win 22 to 0.

The Central gridders are undefeated this year having beaten Edison twice and Vernon once thus clinching first place in the city league. They also have a victory over the Bexley Junior High to their credit.

Vernon has won only once this season that victory coming over Edison 12 to 6 in their first game. If they should defeat or tie the Uptowners they will gain a second place in the Junior High league however a tie will leave them knotted with Edison for second position.

There will be two contests, a reserve and a varsity game, the first getting under way at 7 p. m.

KEGLER WINS $4,500

By The Associated Press

CHICAGO, Nov. 4—Ned Day of West Allis, Wis., former national match game bowling champion, averaged 205.10 pins in a cross-country match of 189 games with current titleholder Joe Wilman of Berwyn, Ill., who averaged 200.85, to win a total of $4,500.

Fighters From 4 Cities Square Off In Bouts Here Wednesday

Fighters from four cities Marion, Mansfield, Delaware and Mt. Vernon have been booked to put on a show for Marion fans Wednesday night in the club rooms of the Williams and Lamb Athletic club.

Although their room is limited there will be about 200 seats available for the matches. This will be the first smoker held locally by the club and the fighters have all had experience in the ring as golden glovers and in AAA fights.

There will be nine three-round amateur bouts starting at 8:15 p. m.

Carded are Bob Haycraft of Marion against Don Byles of Delaware in the bantam weight class. Jack Sekinger of Marion will fight Bob Myers of Mansfield in the lightweight class. Darrell Murton of Marion will meet John Neptune of Mansfield in a middleweight bout.

The next will be 135 pounders Paul Richardson of Marion against Jack Brandt of Mansfield. A heavyweight match will bring together Oliss Lavette of Marion and Tom Weaver of Mansfield. Lavette is fairly well known to local fight fans and promises to be an up and coming pugilist.

The sixth fight will see two local boys Gene Hunt and Kenny Chevalier paired off.

Art Miller from Mansfield will fight Cliff Graham of Mt. Vernon in the middleweight division. Jack Draper a former golden gloves champ will engage Dwight Fawcett of Mt. Vernon in a welterweight scrap. The final match will be in the flyweight division between Norman Richardson of Marion and Bob Cane of Delaware.

Army-Notre Dame Tilt Takes Chief Interest Next Weekend

By The Associated Press

NEW YORK, Nov. 4—They'll play the usual quota of college football games on the white-striped fields around the country this week but to the average fan the only thing that matters will be the national championship struggle between Army and Notre Dame at New York's Yankee stadium Saturday afternoon.

These two outfits still remain unbeaten and untied—a condition shared only by UCLA and Georgia among all the major elevens in the land.

Both of them warmed up to the battle of the year by scoring shutout victories last weekend, a weekend in which Pennsylvania and Harvard were hauled rudely out of the all-victorious class and such once-tied teams as Northwestern, North Carolina and Oregon absorbed their first defeats.

Notre Dame whipped Navy 26-0 for its fifth triumph of the year.

Army Makes It 25

Army subdued a stubborn West Virginia team 19-0 to run its three-year victory string to 25 in a row. The Cadets have scored 208 points this year against Villanova, Oklahoma, Cornell, Michigan, Columbia, Duke and West Virginia, allowing them a total of 55.

A crowd of some 80,000 will squeeze into the park that Babe Ruth's bat built to see the season's top attraction. Officials say at least a million tickets could be sold at $4.80 a copy if they had the seats.

Pennsylvania, upset by Princeton 17-14, also plays in New York this week, leaving its home field for the first time in three years to meet Columbia, which was surprised by Cornell 12-0. Harvard, clipped by Rutgers 13-0, returns to Ivy league play where it now tops the standings to invade Dartmouth. A third Ivy league clash sends Brown, 19-21 loser to Holy Cross, into New Haven to test a Yale team which stopped Dartmouth 33-2.

Other top games in the east will have Syracuse at Cornell, Temple at Penn State, Fordham at West Virginia, Colgate at Holy Cross and Virginia at Princeton.

On the other side of the country, an important weekend is coming up in the Pacific Coast conference, where Southern California has emerged as the likely team to fight it out with UCLA for the title when they meet Nov. 23. UCLA kept its record clean Friday night by beating St. Mary's 46-20, and Southern Cal wrested second place from Oregon with a 43-0 triumph on Saturday.

UCLA invades Oregon this week while Southern California goes to California, 47-14 conqueror of Washington State, and Stanford and Oregon State, who played a scoreless tie, entertain Washington and Idaho respectively.

Georgia, the south's major power, kept its slate unmarred by whitewashing Alabama 14-0, and bids for further Southeastern conference honors this week at Florida, Navy will be at Georgia Tech, 14-0 winner over Duke.

Oklahoma, 14-12 winner over Texas Christian, invades Kansas, 14-13 upsetter of Oklahoma A. and M., for a Big Six tilt. Other midwestern headliners will find Colorado at Missouri, Iowa State at Drake, Kentucky at Marquette, and Oklahoma A. and M. at Tulsa.

In the Southwest conference, first-place Rice faces a stiff test at Arkansas, while Texas goes to Baylor and Texas A. and M. to Southern Methodist. Rice breezed past Texas Tech 41-6, as Arkansas downed Texas A. and M. 7-0 and Texas turned back Southern Methodist 19-3.

OHIO GOLFER WINS

By The Associated Press

MEXICO CITY, Nov. 4—Frank R. Stranahan, 25-year-old Toledo, O., golfer whose sensational play has put him among the 10 top ranking U. S. amateurs, added another star to his crown with a 3 and 2 victory yesterday over Earl R. Stewart of Houston, Tex., in the Mexican National Amateur Open Golf championship. Stranahan, his blond hair bleached by Mexico's brilliant sun, came from behind to take the lead in the third nine. He was two down at the end of the first nine and halved the second nine.

Kenyon Trips Ashland For First Win In 3 Years As 2 Other Ohio Teams Falter

By The Associated Press

The Lords of Kenyon were back on the victory trail today, but two other Ohio college football elevens—Denison and Wilmington—still were looking for that first win of the season.

Kenyon ended a 13-game losing streak over the weekend, upsetting Ashland college 20 to 13, for the Lords' first triumph since the season of 1943. They had lost their first three this year.

Denison and Wilmington, however, couldn't get out of the rut, both going down to their fifth straight defeats of the year Saturday.

The Big Red of Denison almost made it, though. They were out in front until the final two minutes. But Roy Turner of Muskingum grabbed a 29-yard touchdown pass and later circled Denison's end for the extra point that gave the Muskies a 14-13 triumph.

Wilmington didn't even come close. The Ohioans held Franklin, Ind., to one touchdown in the first half, but the Franklins pushed over three more in the last two periods to thump the Ohioans, 25 to 0.

At the other end of the Buckeye pigskin ladder, Baldwin-Wallace's Yellow Jackets rallied for three touchdowns in the final quarter to beat out Case, 28 to 13, and remain the only defeated team in the state. The Yellow Jackets have won four and tied two.

O.S.U. Upsets Northwestern

Ohio State upset Northwestern, 39 to 27, nudging the Wildcats out of the Western conference leadership and moving themselves into a contending position, tied for third place. Illinois leads the Big Nine with four wins and one loss. Michigan is next with three wins a tie and a loss, while Ohio and Northwestern have identical 2-1-1 records.

Jerry Krall and Joe Whisler were the big guns in Ohio State's triumph, each scoring a pair of touchdowns. Whisler, hurt in the first half and retired to civilian clothes before the game's end, recovered in time to don his football suit a second time, re-enter in the fray and score the winning and game-icing touchdowns.

Miami's high-flying Redskins knocked Bradley of Peoria, Ill., out of the unbeaten-untied class, 35 to 0, at Oxford. It was the sixth in a row for Miami which started out the season with a loss to Purdue. Bradley had won five straight.

3 Others Win

Three other Ohio schools registered triumphs over out-of-state elevens to give the Buckeye contingent a record of 36 wins, 22 losses and four ties with outsiders this season. Kent State downed Kalamazoo in Michigan, 12 to 0; Defiance edged Canterbury of Indiana, 13-6, and Youngstown, paced by Conzy Lucci's three touchdowns, turned back Scranton, Pa., 33 to 14, at Youngstown.

Wilberforce played a scoreless tie with Lincoln at Jefferson City, Mo., in one of the "footliest" football games on record. Playing in a steady downpour, neither club could click offensively and spent most of the afternoon in a punting duel—Wilberforce booting 22 times and Lincoln getting off 26.

Finishing on the short end on foreign gridirons, were Cincinnati and Cedarville. Cincy's Bearcats dropped a 20-0 decision to Tulsa at Tulsa, Okla., and Cedarville got thumped, 21 to 0, by Ferris Institute at Big Rapids, Mich.

Dayton Beats Xavier

In the only Sunday game of the week-end in Ohio, Dayton university Flyers overpowered Xavier at Cincinnati with an aerial attack that brought three second half touchdowns. The Flyers won 33-6.

In contests in Ohio Saturday, Ohio university bounced back from two straight defeats to overwhelm Ohio Wesleyan, 49 to 7; Otterbein won its fifth straight against one defeat, routing Capital 50-6; Mount Union edged Wooster, 7 to 5, a third period touchdown overcoming Wooster's earlier field goal and safety; Heidelberg thumped Ohio Northern, 20 to 7; Bowling Green dumped Oberlin 14-0; Rio Grande won its fourth in a row, humbling Hiram 20-6; Toledo tallied twice in the final period to beat John Carroll 28-19, and Akron upset Western Reserve 13-6.

LOS ANGELES DONS TRIP CLEVELAND PROS

By The Associated Press

LOS ANGELES, Nov. 4—The Los Angeles Dons started like lightning and finished the same way, leaving the stunning Cleveland Browns clinging to leadership in the Western division of the All-America conference by one slim game today.

In the final 20 seconds of yesterday's contest before a crowd of 24,800 largest of the season here, the Dons handed the Browns their second straight defeat, 17 to 16.

On the first play after the opening kickoff, Chuck Fenenbock put the Dons in front with a 75-yard touchdown sprint.

In the initial period, Lou (The Toe) Groza scored three points for Cleveland with a placekick from the 25-yard line, and the Browns went ahead with two touchdowns in the second period.

The first came as the Browns recovered a fumble on the Dons' 16 and cross the goal on four plays, Bill Lund sweeping right end from the five-yard line. The second was on a pass from quarterback Otto Graham to left end Mac Speedie, who raced 79 yards for that marker. Groza missed one conversion, snapring his string at 22 Had it been good, the Browns could have had a tie.

The Dons struck again in the final period, Dale Gentry carrying the ball over from the eight-yard line when the period was seven minutes old. And the final bolt was big Joe Aguirre's field goal in the last 20 seconds. Aguirre also converted after each of the Don's touchdowns.

Wearing the Browns down with smashes, the Dons gained 220 yards on the ground against the visitors' 43.

Cleveland's previous defeat this season was at the hands of the San Francisco 49ers—the team the Browns meet next Sunday.

The Browns now lead the second place 49ers, by one game. The 49ers trounced Buffalo 27-14 Saturday night.

The New York Yankees, Eastern division leaders, squeaked out a 24-21 decision over the last place Miami Seahawks, winning the game in the final 26 seconds when Ace Parker pitched a scoring pass to Jack Russell.

The Yanks now lead the runner-up Brooklyn Dodgers who topped the Chicago Rockets 21-14 Saturday night to lead by 2½ games.

Cleveland Cage Pros Down Toronto 71-60

By The Associated Press

CLEVELAND, Nov. 4 — The Cleveland Rebels, in their debut in the Basketball Association of America, found avid support in the city's sports fans and responded with an easy 71 to 60 victory over Toronto's Huskies. Freddie Baumholtz, former Ohio State and Great Lakes naval station ace, paced the Rebels in their opener before 7,-000 spectators by scoring 10 field goals and sinking five free shots for a total of 25 points.

Runner-up was Toronto's George Nostrand, formerly of Georgetown, N. C. college, and Wyoming university, with 17. The loss was the Canadians' second in a row.

IRISH GI BRIDE FREE ON BOND

Judge Ponders Sentence After Conviction for Involuntary Manslaughter.

By The Associated Press

LAS VEGAS, Nev., Nov. 4—Bridget Waters, dark-haired, emotional Irish nurse who shot and killed her estranged husband Sept. 2, was at liberty on $5,000 bond today while Judge A. S. Henderson pondered the sentence he will impose Wednesday on her conviction of involuntary manslaughter.

Nevada law provides for one to five years in prison, a fine up to $1,000, or both fine and prison sentence. A jury took six ballots but foreman Robert Waymire said none was on the state's request for a verdict of first degree murder that would have carried the death sentence.

The jury, eight men and four women, recommended that Mrs Waters eventually be deported, inasmuch as she is subject of Great Britain Her 18-months-old son by the slain Frank Waters, may create, Judge Henderson said, 'a conflict of laws between the British and American governments that might have to be decided in a federal court."

Although the boy is, technically, a British subject, the U. S. government could claim him because he was born of a civilian employe of this government stationed abroad. The child was wounded slightly by the bullet which killed his father.

The 26-year-old war bride received the verdict calmly, told newsmen she had received a fair trial"

"I'm glad it's over," she said "I hope to get back to England with my boy as soon as possible"

But her attorney Marion Earl, announced he would file an appeal

Waters, a bank teller, married Bridget in 1944 when he was an airplane company technician in England and she was a war nurse He was sent to France, and did not return to her, she testified last July after flying from England to resist successfully Waters' divorce suit.

Bridget's defense was that she feared harm to her and the child, that the small pistol she held under a baby blanket was accidentally discharged as her husband came toward her.

MARION'S STAKE IN OHIO COAL

Coal is most familiar as a producer of heat. It is used in the Marion area for heating homes, schools, churches, factories, and other buildings. Coal is also used to run railroads; generate electricity; power factories; process clay for brick, tile, and pottery; and otherwise add to the wealth of Marion. Ample supplies of coal are not only necessary to our comfort, they are essential to our business, our industry, and our means of earning a living.

Ohio is fortunate in having both the rich, deep top soil of the western and central portions of the state, and the rich, vital mineral deposits of the eastern hill section. These are priceless heritages, to be carefully preserved and wisely used, without waste or extravagance.

Strip mining was developed as a means of recovering coal, clay, limestone, sandstone and gravel, which could not otherwise be taken from the ground. It is a means of recovering minerals which lie too near the surface for any other method to be practicable or safe.

The strip mining process does not destroy, desecrate or defile any land It turns the ground over, a process of deep plowing. In most cases the turning over of the land enriches it, by bringing to the surface elements which restore its previously depleted fertility, retarding erosion of the steep hillsides and protecting the soil in the valleys below. Actually strip mining affects only ¼ of 1 per cent of the area of the state.

The primary obligation of the coal producer to the welfare of the state is the production of coal to meet present needs. His second obligation is the conservation of Ohio's coal resources. To ignore this irreplaceable commodity by leaving in the ground that portion which lies too near the surface to be removed by the underground method of mining would be an intolerable waste. The people of Ohio cannot afford to have the mineral resources of eastern Ohio wasted, any more than they can afford to waste the agriculutral crops of western Ohio.

The third obligation to the welfare of the state accepted by the coal producer is the economic utilization of the surface areas which he owns. To his credit must go his efforts to reclaim to surface productiveness the areas involved in strip mining. The coal producer is also setting an example to other land owners for private enterprise to profitably reclaim the vastly greater areas of idle and waste lands of eastern Ohio.

The coal companies of Ohio are proud to be the producers of coal. They are proud of the importance of their commodity to the welfare and prosperity of the state. They are fully aware of the responsibility they have to continue the uninterrupted flow of coal to the Marion county industrial area. They have met this responsibility, even in times of gravest crisis, and they will continue to meet it so long as they are free to do so.

There is a mother who misses you sadly,
And finds the time long since you went,
And I think of you daily and hourly.
But try to be brave and content.
But the tears that I shed in silence,
And I breathe a sigh of regret,
For you were mine, and I remember,
Though all the world forget.

SELECTED STOCKS CONTINUE CLIMB

By The Associated Press

NEW YORK, Nov. 4—Selected stocks continued their forward climb in today's market although pre-holiday profit cashing acted as a restraint for many recent winners.

Utilities were out in front from the start with low-quoted issues appearing in blocks running to 10,000 shares while losers cropped here and there near the fourth hour, plus marks of fractions to 1 or more points predominated.

Eastman Kodak and U. S. Gypsum added several points each on a few transactions. Supported were Consolidated Edison, North American, American Water Works, U. S. Steel, Chrysler, General Motors, Goodyear, International Harvester, United Aircraft, American Can, DuPont, Allied Chemical, Johns-Manville and Santa Fe. A sizable extra disbursement spurred Western Auto Supply common.

Cotton futures developed a lower trend. Bonds were steady. In the curb a lift was given Waltham Watch, Dennison Mfg. "A," American Gas, Electric Bond and Share and Solar Aircraft.

Numerous customers remained away from the financial sector, intending to stretch the weekend through Tuesday when the nation's principal exchanges will recess for the elections.

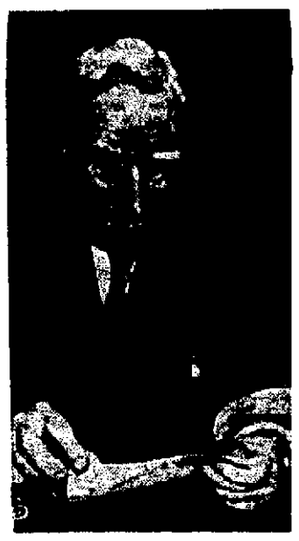
NO TRAFFIC—FORD'S TOWER COMES DOWN. Built 22 years ago, the 175-ton, 224-foot dirigible mooring mast Henry Ford erected in Dearborn, Mich., for lighter-than-air craft is caught in mid-air, as it is brought down. The mast had moored only one airship. When he ordered it built, Ford believed that dirigibles would replace airplanes.



FOOD FOR THOUGHT. Stabilization of farm prices and expansion of world agriculture are essential to lasting world peace, declared Sir John Boyd Orr during a conference at the U. S. fighting for the seat of Senator Robert M. LaFollette (Prog-Wis.) who was defeated in the Republican primary.

Ninety-seven candidates are in the field for 34 senate seats which will be filled in tomorrow's election.

There are 880 contestants for the 432 house seats at stake and 88 for the 33 governorships now held by 16 Democrats and 17 Republicans.

Maine already has returned Senator Owen Brewster (R) for another six-year term, kept its three house seats in the GOP column and reelected Gov. Horace A. Hildreth (R).

Party leaders prepared to turn to the radio tonight to wind up a campaign that generally has been marked by skimpy crowds at political rallies and by outward apathy of the voters to candidates' appeals on formal issues.

Nearly 75 cents out of every dollar the U. S. government spends for health goes for hospital construction and patient care.

Programs on the Air

By The Associated Press

NEW YORK, Nov. 4—The battle over color television seems to be waxing more than it is waning. It's all about how soon this development is to be ready for the public. Also the system to be used.

CBS, advocate of Dr. Peter C. Goldmark's mechanical color reproducer, had pleaded: "Let's go; we're all set." RCA, developer of the first practical all-electronic system, countered: "Hold your horses; it'll take nearly five years more to get ready."

The place where all these matters must be ironed out is the federal communications commission, which recently fixed Dec. 9 for a hearing asked by CBS to set operating standards for its system and authorize commercial color telecasting.

On the air tonight: pre-election roundups: ABC 9:30 and MBS 10, commentators and pickups from various cities.

Other: NBC 8 Cavalcade drama, Robert Young; 9 Maggie Teyte in Voorhees concert; 930 Goodman and Borge; 10:30 I. Q. quiz.

CBS—7:30 (repeat 10:30) Bob Hawk show; 8:30 Joan Davis' comedy; 9 Radio Theater; 10 Adolphe Menjou in "Experiment Perilous;" 11:30 Eileen Farrell.

ABC—7:30 Lone Ranger; 8:30 The Fat Man; 9 Dark Venture drama; 10 Doctors Talk; 10:30 Fantasy in Melody.

MBS—8 Bulldog Drummond; 8:30 Gregory Hood Casebook; 9:30 Guy Lombardo; 10:30 California Melodies. Temporary time change.

• • •

"How Can We Make A Lasting Peace With Germany?" will be discussed on the ABC broadcast of America's Town Meeting Thursday at 8:30 p. m. Speakers will be H. V. Kaltenborn, veteran commentator; Joseph Alsop, former captain in the 14th Air Force, author and columnist; William L. Shirer, author and radio commentator and Bernard Bernstein, attorney and former financial advisor to Gen. Dwight D. Eisenhower.

Ted Hediger, writer of "I Deal in Crime" mystery scripts starring William Gargan as "Ross Dolan" each Saturday over ABC stations, is a veteran licensed radio amateur. He operates his own 1,000-watt CW and 'phone station, WØFL, in Burbank, Calif., regularly as a hobby. He talks to English-speaking "ham" operators in England, France and the American-occupied zone of Germany.

JANE, DO YOU WANT TO TALK ABOUT... WELL, ABOUT SNAKE TUMBLIN?
I GUESS A YEAR AND A HALF SHOULD BE LONG ENOUGH FOR ME TO THINK OBJECTIVELY, TERRY, BUT THERE WAS NEVER ANYONE LIKE SNAKE IN MY LIFE BEFORE! IT HURT WHEN HE DIDN'T COME BACK!
HOWEVER, IT'S BETTER TO KNOW ALL THE DETAILS ABOUT THESE THINGS... IT WAS GOOD OF YOU TO TAKE ME TO THE PLACE WHERE SNAKE CRASHED... AND TO FIND THE NATIVES WHO PUT A CROSS THERE, EVEN THOUGH THE FIRE LEFT NO BODY TO BURY!
IT WAS NOT A PLEASURE, JANE, BUT I'M GLAD I COULD HELP...

LOVE'S FAIR HORIZON

By ADELE GARRISON

KATIE had the grace to look a bit abashed when she had finished uttering her diatribe against the two Brixton "vimmens." She well knew that the epithet of "snooper" was one which my mother-in-law frequently, and with justice, had applied to her.

But she also knows that never has she revealed to anyone anything that she has overheard, nor has she ever violated a confidence given her. Because I share that knowledge, I kept my eyes averted from her embarrassed face, and answered her stricture in matter-of-fact tones.

Locked Up Now

"They are locked up now in Mrs. Underwood's room," I said, 'and they will not be left unguarded for a single second while they are here. I may want you to help in their guarding after tonight."

"Oh-h-boy!" she exclaimed joyously, then colored as she caught my reproving look.

"I no mean I crow fer dem," she said hastily. "I shoost mean dey von't get avay mit any foony beeznis ven Me, I'm camping on dere trail."

"I'm sure they won't," I said hastily, for I could hear my father's footsteps on the porch. "And now, I must go with my father. Do you want to ask me any questions about the dinner or the trays?"

"Nope," Katie returned airily, then she caught herself—in mid-air, as it were—and spoke with a demureness that almost upset my risibles, coming from my temperamental houseworker.

"No, tank you, Missis Graham, Me, I ask all qvestions I need, und now I feex eferything. Don't you vorry vun leetle bit."

A Cheery Assurance

The cheery assurance followed me out into the hall where I met my father and Harry Underwood coming through the door. As if on signal we all three turned in the direction of my father's wing.

"The caravan has started, I suppose?" I said.

"It's not only started, it's half way to Watermill by now, if they keep up the pace Joe set when they went out of here," Harry Underwood said with a grin. "The celebrated bat from the equally famous heated abode had nothing on those babies."

A Good Thing

"It's a good thing they are both fool-proof drivers," my father commented dryly, and then we spoke no more until we stood outside the door of his own entrance hall. He knocked lightly, and Katharine opened the door almost immediately.

"Sam will need nothing that Harry cannot do for him?" my father queried.

"N'o, indeed," Katharine answered. "And I already have told him that Harry is to stay with him. He is quite happy about it. I think he likes you, Harry."

"I don't know why," the big man said dryly. "We've had some run-ins in the dear, dead days gone beyond recall."

A Light Retort

"Your fatal charm, probably," Katharine retorted lightly, and then my father effectively stopped the persiflage.

"If you will please go in now, Harry, and take charge," he said, "I am all ready to conduct you, Katharine, and Dr. Twitchell to your other patient. Will you summon the physician, please? Ask him to bring his bag, and will you please bring down your own kit?"

"We will be with you immediately," Katharine said, and, indeed, it was less than a minute before she and the elderly physician were at the door.

"I do not wish any knowledge of our present shift of locale to come to the ears of the two Brixton women," my father said in muted voice when they had come into the hall, and the door had closed behind them. "Therefore I must ask you not to speak, and to walk as lightly as possible until we reach our destination."

He turned and led the way along the corridor to the barred door which marked the entrance to the attic. He took a key from his ring, unlocked the big door, stood aside until we had gone through it, then locked it after him.

"The Brixton rooms are below this," he said, "so please tread carefully although there are thick rugs all along our way."
